

## Notes for contributors

1. **Contributions** (for two categories, approx. 6000–7000 or 3000–4000 words) should be in English (American spelling). Authors whose native language is not English are asked to have their article carefully checked by a native speaker. Manuscripts should be submitted as **e-mail attachments** to: <commed@cardiff.ac.uk> and **one hard copy** sent to the Editor: Srikant Sarangi, Health Communication Research Centre, Cardiff School of English, Communication and Philosophy, Cardiff University, Humanities Building, Colum Drive, Cardiff CF10 3EU, UK. Please note that the journal operates an anonymous peer review process.
2. The manuscript must be accompanied by a **cover sheet** listing, after 'Submission for Communication & Medicine': **name(s)** of the author(s); **institutional address**, telephone, fax numbers, and **e-mail** address of the main author; home telephone number; article **title**; **short title** (for running head).
3. On two separate pages please supply: 1) **bionote** (brief academic biography of the author, maximum of 75 words) including correspondence address; 2) **abstract** (maximum of 200 words) summarizing the whole article, not just the conclusions; 3) **six keywords**.
4. **Manuscripts** must be typed double-spaced in 12 point font on one side of A4 or letter-size paper, divided into sections with numbered headings. All pages must be numbered. Emphasized words or phrases should be italicized. Foreign words should also be italicized and followed by a translation in single quotation marks. Use single not double quotation marks throughout. Please avoid the use of boldface in the text. For data transcripts with line numbers rather than turn numbers, use a maximum of 40 characters per line (including spaces).
5. Following formal acceptance, contributors are requested to submit the **final version** on disk as well as two hard copies. A common PC wordprocessing program such as WORD should be used. Any special characters (e.g., diacritical marks) used should be labeled and clearly identified at their first occurrence.
6. **Line drawings** (called 'Figures' in the text) and **photographs** (called 'Plates' in the text) must be reproducible originals and should be submitted on separate pages and placed at the end of the manuscript. Figures prepared in electronic form should be placed in separate files to the text files and clearly labeled. Hard copies must also be supplied. Figures will be reduced in size to fit the width of a single column where possible, or if necessary, a double column. A note should be placed in the text to indicate the approximate placement of each figure and plate, e.g., 'Figure 1 about here'. Figures and plates should be numbered separately, i.e., Figure 1, 2, 3 and Plate 1, 2, 3, etc. Captions for all figures and plates should be typed on a separate page at the end of the article. All figures and plates must be cited in the text.
7. **Tables** should be numbered consecutively and titled, and must be referred to in the text.
8. **Footnotes** should be kept to an absolute minimum. They should be numbered consecutively throughout the article (not per page) and listed on a separate page entitled 'Notes' at the end of the article, preceding the References.
9. **Citations** in the text should give the surname of the author(s) or editor(s), year of publication, and page numbers where appropriate, in the following style:

Smith (2002)	(Smith 2002: 250–253)	(Smith et al. 2003: 10)
(Smith 1979, 2001)	(Smith and Jones 1976)	(Smith 1970a, 1970b)
(Smith 2000: 24)	(Smith 1991; Jones 1992)	(Smith 2004 [1992])

Do not use 'ibid.' or 'op. cit.' but repeat the author, date, and page citation. In referring to information from a particular work, please give the exact page numbers, e.g. (Smith 1979: 54–59), not '54ff.'
10. All works cited in the text, and only those, must be fully listed in the **Reference section** at the end of the manuscript, in alphabetical order by author. All entries for book publications must include place of publication and publisher. Please be sure to give the page numbers of articles in both books and journals as well as the volume and issue number in the case of journal articles; do not abbreviate the names of journals. Note the system of capitalization and punctuation in the following examples:

*Book*  
Mishler, E. G. (1984). *The Discourse of Medicine: Dialectics of Medical Interviews*. Norwood, NJ: Albex.

*Article in a book*  
Cicourel, A. V. (1999). The interaction of cognitive and cultural models in health care delivery. In *Talk, Work and Institutional Order: Discourse in Medical, Mediation and Management Settings*, S. Sarangi and C. Roberts (eds.), 183–224. Berlin/New York: Mouton de Gruyter.

*Journal article*  
Adelswärd, V. and Sachs, L. (2003). The messenger's dilemmas—giving and getting information in genealogical mapping for hereditary cancer. *Health, Risk & Society* 5 (2): 125–138.

*Dissertations and theses*  
McAllister, M. (2000). Predictive testing for Hereditary Non-Polyposis Colorectal Cancer (HNPCC): A theory of engagement. Unpublished Ph.D. dissertation, University of Cambridge, Cambridge.
11. **Corrections**. Authors are asked to check their manuscripts very carefully before submitting them in order to prevent delays and extra costs at the proof stage. Authors will receive PDF page proofs for correction which must be returned by dates given in the publication schedule.
12. **Complimentary copies**. Contributors will be sent one complimentary copy (each). If there is more than one author, the copies (up to a maximum of three) will be sent to the first-named contributor for distribution.
