## OBJECTIVE:

BioNanoMaterials (BioNanoMat) is a multidisciplinary journal that provides reports on fundamentals and clinical application of biomaterials, in particular nanobiomaterials. The journal keeps you up-to-date with all new developments in the field.

## TOPICS:

- ▶ Biomaterials and surface modification/functionalization
- ▶ Scaffold material in tissue engineering
- ▶ Chemistry (nanoparticles and nanomaterials)
- ▶ Dental implantology/prosthodontics

## BENEFITS:

- ▶ Rapid publications on application of biomaterials
- ▶ Recent research results of exceptional significance
- ▶ Ahead-of-print publications
- ▶ Dental implantology/prosthodontics

BioNanoMaterials is the official Journal of the **German Society for Biomaterials (Deutsche Gesellschaft für Biomaterialien)** and publishes the abstracts of the annual society conferences.

## Submit your paper

### Your benefits of publishing in BioNanoMaterials:

- ▶ Rapid online publication ahead-of-print with short turnaround times for submission to first decision and about 3 weeks from acceptance to publication
- ▶ High quality double blind peer-review
- ▶ Free publication of color figures both in online and print editions and no page charges
- ▶ Every article easily discoverable because of SEO and comprehensive [abstracting and indexing services](#)
