OBJECTIVE:

The *European Journal of Applied Linguistics (EuJAL)* focuses on the particular concerns of applied linguistics in European contexts, both by addressing problems that are typically relevant for the linguistic situation in Europe, from those on the level of the EU as a pan-national body down to the level of the individual, and by examining topics broached by or discussed in European applied linguistics in particular. In addition to resulting from an epistemological stance, EuJAL is a logical outcome of the regionalization policy of the Association Internationale de Linguistique Appliquée (AILA), supporting the societies' commitment to regionalization by focusing on the European language space and by giving applied linguists from this regional context an adequate forum. EuJAL is part of the joint activities of the European AILA affiliates.

BENEFITS:

- ▶ Focus on Applied Linguistics relevant both for Europe and in Europe
- ▶ Timely publication of high-quality peer-reviewed articles
- ▶ Indexed in the Emerging Sciences Citation Index (ESCI) and Scopus
