

FIGURES

1. Index map of study area	8
2. Outcrop map of the Cloverly Formation in the study area	follows charts
3. Comparison of Morrison-Cloverly terminology usage	12-13
4. Measured stratigraphic sections	follows charts
5. Stratigraphic distribution of Cloverly vertebrates	52
6. Theropod vertebra	70
7. Sauropod ischium	80
8. Reconstruction of skull of <i>Tenontosaurus tilletti</i>	87
9. Dorsal reconstruction of skull of <i>Tenontosaurus tilletti</i>	89

TABLES

1. Comparative dimensions of <i>Microvenator</i> and some selected theropods	74
2. Dimensions of sauropod dorsal vertebrae	79
3. Dimensions of sauropod caudal vertebrae	81
4. Dimensions of <i>Tenontosaurus tilletti</i>	96
5. Dimensions of <i>Sauropelta edwardsi</i>	116

CHARTS

1. Measured sections in the Cloverly-Shell Creek area	291
2. Measured sections in the Hyattville-Tensleep-Nowood Creek area	297
3. Measured sections in the Thermopolis area	305
4. Measured sections in the Cody area	309
5. Measured sections in the Crooked Creek-Gypsum Creek-Warren area	315
6. Measured sections in the Bridger-Pryor Mountain area	319
7. Measured sections in the Pryor-Beauvais Creek area	323
