

## ILLUSTRATIONS

### TEXT FIGURES

1. Diagram of the functional units of a mosasaur skull
2. Mosasaur premaxillae
3. Frontal of *Mosasaurus maximus*
4. Undersurface of frontals
5. Prefrontals
6. Right palatine of *Platecarpus ictericus*
7. Orbitosphenoid of *Platecarpus*
8. Parietal of *Mosasaurus maximus*
9. Basioccipital-basisphenoid of *Platecarpus*, lateral view
10. Basioccipital-basisphenoid of *Platecarpus*, dorsal view
11. Basicranial circulation of *Platecarpus*
12. Braincase of *Clidastes propython*, lateral view
13. Braincase of *Clidastes propython*, medial view
14. Periotic labyrinth of *Clidastes propython*
15. Prootic of *Tylosaurus nepaeolicus*
16. Endocranial cast of *Platecarpus*
17. Occipital view of skull of *Platecarpus ictericus*
18. Occipital muscle insertions in *Platecarpus*
19. Supraoccipital of *Platecarpus*
20. Quadratic suspensorium of *Platecarpus*
21. Pterygoid of *Tylosaurus proriger*
22. Pterygoids
23. Stapes and epipterygoid of *Platecarpus ictericus*
24. Quadrates
25. Quadrates of *Platecarpus ictericus*
26. Anterior mandibular unit of *Clidastes liodontus*
27. Anterior tip of dentary of *Tylosaurus proriger*
28. Splenio-angular articulation of *Platecarpus*
29. Mandible of *Platecarpus ictericus*
30. Marginal tooth of *Mosasaurus maximus*
31. Reconstructed cross section of skull of *Platecarpus*
32. Reconstructed temporal region of skull of *Clidastes liodontus*
33. Restored superficial mandibular musculature of *Clidastes*
34. Restored deep mandibular musculature of *Clidastes*
35. Kinesis in mosasaurs
36. Streptostyly in mosasaurs
37. Restored skull of *Platecarpus ictericus* with jaws opened and protracted
38. Restored skull of *Platecarpus ictericus* with jaws closed and retracted
39. Atlas-axis vertebrae of *Clidastes propython*
40. Anterior portion of vertebral column of *Platecarpus*
41. Areas of muscle attachment on anterior portion of vertebral column of *Platecarpus*
42. Vertebra of *Clidastes* showing zygosphenes-zygantrum
43. Scapula-coracoid of *Clidastes liodontus*
44. Scapula-coracoid of *Platecarpus*
45. Scapula-coracoid of *Tylosaurus*

46. Interclavicles
47. Humeri of *Plotosaurus* and *Mosasaurus*, flexor aspect
48. Humeri of *Tylosaurus* and *Platecarpus*, extensor aspect
49. Humeri of *Mosasaurus* and *Clidastes*, extensor aspect
50. Forelimb of *Clidastes*
51. Forelimb of *Mosasaurus conodon*
52. Forelimb of *Plotosaurus tuckeri*
53. Forelimb of *Platecarpus*
54. Forelimb of *Ectenosaurus clidastoides*
55. Forelimb of *Tylosaurus proriger*
56. Pelvic girdle of *Mosasaurus conodon*
57. Pelvic girdle of *Platecarpus*
58. Pelvic girdle of *Tylosaurus*
59. Femur of *Mosasaurus hoffmanni*
60. Hind limb of *Clidastes liodontus*
61. Hind limb of *Mosasaurus conodon*
62. Hind limb of *Platecarpus*
63. Hind limb of *Tylosaurus proriger*
64. Cross section of the trunk of a mosasaur in the pelvic and caudal region
65. Scapula-coracoid of *Clidastes* showing muscle attachments
66. Extensor musculature of forelimb of *Clidastes*
67. Flexor musculature of forelimb of *Clidastes*
68. Pelvis of *Clidastes* showing supporting musculature
69. Pelvis of *Clidastes* showing appendicular musculature
70. Hind limb of *Clidastes* showing arrangement of appendicular muscles
71. Muzzle of *Clidastes sternbergi*
72. Dorsal view of skull of *Clidastes liodontus*
73. Muzzle of *Clidastes liodontus*
74. Muzzle of *Clidastes propython*
75. *Clidastes* parietals
76. *Clidastes* quadrates
77. Dentary of *Mosasaurus conodon*
78. Dentary tooth of *Mosasaurus conodon*
79. Muzzle of *Mosasaurus ivoensis*
80. Quadrate of *Mosasaurus maximus*
81. Pelvis girdle of *Amphekepubis johnsoni*
82. Marginal teeth of *Iiodon sectorius*
83. Dorsal view of skull of *Platecarpus ictericus*
84. Ventral view of skull of *Platecarpus ictericus*
85. *Platecarpus* dentaries
86. Dorsal view of skull of *Ectenosaurus clidastoides*
87. Quadrate of *Plioplatecarpus primaevus*
88. Mandibular elements of *Plioplatecarpus depressus*
89. Dorsal view of skull of *Prognathodon overtoni*
90. Lateral view of skull of *Prognathodon overtoni*
91. Quadrate of *Prognathodon rapax*
92. Dorsal view of skull of *Tylosaurus proriger*
93. *Tylosaurus* parietals
94. *Tylosaurus* quadrates
95. Lateral view of skull of *Tylosaurus nepaeolicus*
96. Mosasaur skulls from the Niobrara Chalk
97. Phylogeny of platynotans

98. Restored skulls of *Clidastes liodontus*, *Opetiosaurus buccichi* and hypothetical ancestral platynotan
99. Diagrammatic family tree of the mosasaurs

**CHARTS**

1. Western gulf mosasaurs
2. Eastern gulf mosasaurs
3. New Jersey mosasaurs
4. Mosasaurs of the interior
5. Belgian mosasaurs
6. French mosasaurs
7. English and Swedish mosasaurs

**PLATES**

- Frontispiece—Life restoration of *Tylosaurus proriger*
1. Restorations of *Clidastes liodontus*, *Platecarpus ictericus*, and *Tylosaurus proriger*
  2. Restorations of *Tylosaurus proriger* and *Plotosaurus*
