

Erratum

Dispersity in polymer science (IUPAC Recommendations 2009). (R. G. Gilbert, M. Hess, A. D. Jenkins, R. G. Jones, P. Kratochvíl, and R. F. T. Stepto). *Pure Appl. Chem.* **81**, 351–353 (2009); doi:10.1351/PAC-REC-08-05-02.

On page 353, the definition of molar-mass dispersity should read:

Ratio of the mass-average molar mass, relative molecular mass, or molecular weight, \bar{M}_w , to the number-average molar mass, relative molecular mass, or molecular weight, \bar{M}_n .
