The Nile: Natural and Cultural Landscape in Egypt

Editorial

The **Mainzer Historische Kulturwissenschaften** [Mainz Historical Cultural Sciences] series publishes the results of research that develops methods and theories of cultural sciences in connection with empirical research. The central approach is a historical perspective on cultural sciences, whereby both epochs and regions can differ widely and be treated in an all-embracing manner from time to time. Amongst other, the series brings together research approaches in archaeology, art history, visual studies, literary studies, philosophy, and history, and is open for contributions on the history of knowledge, political culture, the history of perceptions, experiences and life-worlds, as well as other fields of research with a historical cultural scientific orientation.

The objective of the **Mainzer Historische Kulturwissenschaften** series is to become a platform for pioneering works and current discussions in the field of historical cultural sciences.

The series is edited by the Co-ordinating Committee of the Research Unit Historical Cultural Sciences (HKW) at the Johannes Gutenberg University Mainz.
