List of Figures and Tables ix
Preface xiii
Acknowledgments xix
List of Abbreviations xxi

1 Introduction 1
  1.1 Time-Delay Systems 1
  1.2 Delay Compensation or Not 4
  1.3 Adaptive Control for Time-Delay Systems and PDEs 11
  1.4 Results in This Book: Adaptive Control for Uncertain LTI Systems with Input Delays 12
  1.5 Book Organization 13
  1.6 Notation 16

I Single-Input Discrete Delay 17

2 Basic Predictor Feedback for Single-Input Systems 19
  2.1 Basic Idea of Predictor Feedback for LTI Systems with Input Delay 20
  2.2 Backstepping Transformation in Standard ODE Delay Notation 22
  2.3 Backstepping Transformation in Transport PDE Notation 26
  2.4 Backstepping Transformation in Rescaled Unity-Interval Transport PDE Notation 30

  3.1 Model Depiction and Basic Idea 36
  3.2 Global Stabilization under Uncertain ODE State 38
  3.3 Global Stabilization under Uncertain Delay 41
  3.4 Local Stabilization under Uncertain Delay and Actuator State 43
CONTENTS

3.5 Global Trajectory Tracking under Uncertain Delay and Parameters 49
3.6 Local Set-Point Regulation under Uncertain Delay and ODE and PDE States 52
3.7 Local Set-Point Regulation under Uncertain Delay, Parameters, and PDE State 55

4 Single-Input Systems with Full Relative Degree 58
4.1 Problem Formulation 59
4.2 State Estimation with Kreisselmeier-Filters 61
4.3 Boundary Control with Adaptive Backstepping 64
4.4 Identification of Unknown Parameters and Delay 70
4.5 Stability Analysis 73
4.6 Simulation 79

5 Single-Input Systems with Arbitrary Relative Degree 84
5.1 Mathematical Model 84
5.2 Trajectory Tracking by PDE Full-State Feedback 85
5.3 Set-Point Regulation by PDE Output Feedback 101
5.4 Simulation 115

II Multi-Input Discrete Delays 119

6 Exact Predictor Feedback for Multi-Input Systems 121
6.1 Basic Idea of Predictor Feedback of Multi-Input LTI Systems with Distinct Input Delays 122
6.2 Unity-Interval Rescaling for Multi-Input LTI Systems with Input Delays 130

7 Full-State Feedback of Uncertain Multi-Input Systems 134
7.1 Problem Statement 135
7.2 Global Stabilization under Unknown Delays 139
7.3 Global Stabilization under Uncertain Delays and ODE State 146
7.4 Global Stabilization under Uncertain Delays and Parameters 150
7.5 Simulation 154
7.6 Auxiliary Calculations for Sections 7.2–7.4 162

8 Output Feedback of Uncertain Multi-Input Systems 169
8.1 Model Depiction 169
8.2 Local Stabilization under Uncertain Delays and PDE States 170
8.3 Stability Analysis 178
8.4 Simulation 187
CONTENTS

9 Output Feedback of Systems with Uncertain Delays, Parameters, and ODE State 199
  9.1 Model Depiction 199
  9.2 Local Stabilization under Uncertain Delays and ODE State 200
  9.3 Local Stabilization under Uncertain Delays and Parameters 205
  9.4 Auxiliary Calculations for Sections 9.2 and 9.3 209

III Distributed Input Delays 217

10 Predictor Feedback for Uncertainty-Free Systems 219
  10.2 Predictor Feedback for Uncertainty-Free Multi-Input Systems 224

11 Predictor Feedback of Uncertain Single-Input Systems 235
  11.1 Adaptive State Feedback under Unknown Delay 236
  11.2 Adaptive State Feedback under Unknown Delay and Delay Kernel 243
  11.3 Adaptive State Feedback under Unknown Delay, Delay Kernel, and Parameter 251
  11.4 Robust Output Feedback under Unknown Delay, Delay Kernel, and PDE State 256
  11.5 Robust Output Feedback under Unknown Delay, Delay Kernel, and ODE State 264

12 Predictor Feedback of Uncertain Multi-Input Systems 267
  12.1 Adaptive State Feedback under Unknown Delays 268
  12.2 Adaptive State Feedback under Uncertain Delays, Delay Kernels, and Parameters 276
  12.3 Robust Output Feedback under Unknown Delays, Delay Kernels, and ODE States 282
  12.4 Robust Output Feedback under Unknown Delays, Delay Kernels, and PDE States 287

Appendix A 293
  A.1 Basic Inequalities 293

Appendix B 296
  B.1 Input-to-Output Stability 296
CONTENTS

Appendix C 303
   C.1 Lyapunov Stability and $\mathcal{X}_\infty$ Functions 303
   C.2 Barbalat’s Lemma with Its Alternative and LaSalle-Yoshizawa’s Theorem 305
   C.3 Input-to-State Stability 308

Appendix D 314
   D.1 Parameter Projection 314

Bibliography 317
Index 331
