vi CONTENTS

Part II. APPLICATIONS

6 Marine Sediments of the Continental Margins 135
   DIAGENESIS WITHIN THE ZONE OF BIOTURBATION 136
   DIAGENESIS BELOW THE ZONE OF BIOTURBATION 148
      Sulfate reduction 149
      Ammonia formation 161
      Phosphate diagenesis 168
      Methane formation 174

7 Pelagic (Deep-Sea) Sediments 178
   CALCIUM CARBONATE DISSOLUTION 178
   OPALINE SILICA DISSOLUTION 190
   SUBOXIC ORGANIC MATTER DIAGENESIS 194
   DIAGENESIS OF RADIOISOTOPES 198
   VOLCANIC-SEAWATER REACTION 202

8 Non-Marine Sediments 206
   FRESH AND BRACKISH WATER SEDIMENTS 206
      Salinity fluctuations 206
      Iron diagenesis 210
      Manganese diagenesis 215
   HYPERHALINE SEDIMENTS 222
