CONTENTS

Paper 17. On the Cardinality of Solutions of Four-Person Constant-Sum Games 327
   By Alberto Raul Galmarino

18. The Doubly Discriminatory Solutions of the Four-Person Constant-Sum Game 345
    By Michael H. Hebert

19. Three-Person Cooperative Games Without Side Payments 377
    By R. E. Stearns

20. Some Thoughts on the Theory of Cooperative Games 407
    By Gerd Jentzsch

21. The Bargaining Set for Cooperative Games 443
    By Robert J. Aumann and Michael Maschler

22. Stable Payoff Configurations for Quota Games 477
    By Michael Maschler

23. On the Bargaining Set \( \mathfrak{W}_0 \) of m-Quota Games 501
    By Bezalel Peleg

24. A Property of Stability Possessed by Certain Imputations 513
    By Hans Radström

25. Coalition Bargaining in n-Person Games 531
    By Evar D. Nering

26. The n-Person Bargaining Game 547
    By Koichi Miyasawa

27. Valuation of n-Person Games 577
    By Reinhard Selten

28. Mixed and Behavior Strategies in Infinite Extensive Games 627
    By Robert J. Aumann

29. A General Solution for Finite Noncooperative Games Based on Risk-Dominance 651
    By John C. Harsanyi
ADVANCES IN GAME THEORY
