Note on Citation

In citing early modern texts, I have preserved their original spellings but modernize typography in the following fashion. Consonantal u and i are revised to v and j; vocalic v is revised to u; long s is revised to s; vv is revised to w; & is altered to and; where a macron indicates the suspension of m or n, I supply the letter. Unless otherwise noted, all emphases appear in the originals.
CIVIL VENGEANCE
