SPIRITUALITY OF CREATION, EVOLUTION, AND WORK
Past Light on Present Life: Theology, Ethics, and Spirituality

Roger Haight, SJ, Alfred Pach III, and Amanda Avila Kaminski, series editors

These volumes are offered to the academic community of teachers and learners in the fields of Christian history, theology, ethics, and spirituality. They introduce classic texts by authors whose contributions have markedly affected the development of Christianity, especially in the West. The texts are accompanied by an introductory essay on context and key themes and followed by an interpretation that dialogically engages the original message with the issues of ethics, theology, and spirituality in the present.
