Acknowledgements

The present volume stems from an international conference on the *Carmina Anacreontea* held in Zurich from the 30th June to the 2nd July 2011. It contains the revised versions of most papers presented at the conference as well as additional contributions which were inspired by the discussions. The conference was hosted by the Classics Department of Zurich University and we are grateful to all its members who supported the organisation in many ways, especially to Silvio Bär, Avani Flück, Susanne Loch, Lena Krauss, Laura Napoli and Fabian Zogg. For their assistance with the publication we are indebted to our colleagues from the Ruhr-University Bochum: Arnold Bärtschi, Katharina Grubert, Sonja Rosenberger, Jessica Schneider and Luzminda Wenzel.

We would also like to thank the anonymous reviewers for their close readings of the papers and the many useful suggestions. Finally we owe a debt of gratitude to the editors of the Millennium-series who accepted our volume for publication and to the publishers of De Gruyter for their guidance in the editing process.

The conference was generously funded by the Hochschulstiftung of Zurich University, the Fonds für Altertumswissenschaft of the Classics Department of Zurich University and by the Vereinigung akademischer Mittelbau der Universität Zürich.
