We wish to express our gratitude to the editorial and technical staff of de Gruyter. We much appreciated the efficient handling of the proofs by Sabina Dabrowski at Content Conversion Services and by Project Manager Ina Talandienė and her colleagues at VTeX. We thank Marianna F. Balogh for her thorough work on the indices.

On the editorial side, we are very grateful to Editorial Director Birgit Sievert and In-House Editor of the CHL Series Barbara Karlson for their assistance in compiling and organizing the volume. Our foremost gratitude goes to Barbara. Her expertise, attention to detail, keen eyes to spot problems, sound advice, great patience, and personal touch greatly eased the burden of our editorial responsibilities and fundamentally affected the quality of this volume.
