Preface — VII

Introduction — IX

- 1 Introduction of Nevanlinna theory and its difference versions — 1**
 - 1.1 Basic notations and facts in the Nevanlinna theory — 1
 - 1.2 Difference Nevanlinna theory — 11
 - 1.2.1 Elementary difference considerations in the complex domain — 11
 - 1.2.2 Difference variants of the logarithmic derivative lemma for meromorphic functions — 12
 - 1.2.3 Key notions and results in difference Nevanlinna theory — 16

- 2 Value distribution of complex delay-differential polynomials — 21**
 - 2.1 Value distribution of difference polynomials — 21
 - 2.2 Value distribution of delay-differential polynomials — 24
 - 2.3 Borel exceptional values of delay-differential polynomials — 51
 - 2.4 The zeros of $[P(f)f(z+c)]^{(k)} - \alpha(z)$ — 56
 - 2.5 Zeros on delay-differential polynomials of exponential type — 59

- 3 Uniqueness of delay-differential polynomials — 67**
 - 3.1 Value sharing on f with its linear delay-differential operator — 67
 - 3.2 Uniqueness of delay-differential polynomials — 78

- 4 Difference Wiman–Valiron theory — 87**
 - 4.1 Differential setting of the Wiman–Valiron theory — 87
 - 4.2 Difference setting of the Wiman–Valiron theory — 88
 - 4.3 Wiman–Valiron theorems for q -differences — 90

- 5 The linear complex delay-differential equations — 93**
 - 5.1 First-order delay-differential equations — 93
 - 5.2 Higher-order linear complex delay-differential equations — 100
 - 5.2.1 Higher-order homogeneous linear complex delay-differential equations — 100
 - 5.2.2 Higher-order nonhomogeneous linear complex delay-differential equations — 106

- 6 Fermat-type delay-differential equations — 117**
 - 6.1 Fermat equations — 117
 - 6.2 Fermat-type functional and differential equations — 117
 - 6.3 Fermat difference equations — 122

6.3.1	Entire solutions of Fermat difference equations —	122
6.3.2	Meromorphic solutions of Fermat difference equations —	128
6.3.3	Fermat delay-differential equations —	132
7	Delay-differential Riccati equations —	149
7.1	Complex differential and difference Riccati equations —	149
7.2	Complex delay-differential Riccati equations —	154
8	Malmquist-type delay-differential equations —	163
8.1	Malmquist-type difference equations —	163
8.2	Malmquist-type delay-differential equations —	164
9	Nonlinear complex delay-differential equations —	195
9.1	Background —	195
9.2	Nonlinear complex delay-differential equations —	195
10	Complex q-delay-differential equations —	213
10.1	Value distribution for q -delay-differential polynomials —	213
10.2	Uniqueness on q -delay-differential polynomials —	221
10.3	q -delay-differential equations —	226
11	Systems of complex delay-differential equations —	241
11.1	Background —	241
11.2	Malmquist-type delay-differential systems —	241
11.3	Fermat-type delay-differential systems —	245
11.4	Systems of q -delay-differential equations —	251
12	Periodicity of entire functions with delay-differential polynomials —	255
12.1	Basic results on periodic functions —	255
12.2	Periodicity of differential, difference, and delay-differential polynomials —	258
Bibliography — 279		
Index — 289
