

Indices

Der Index verborum ist ein gemeinsamer Index für beide Inschriften (Act. Aug. und Act. Sev.); dabei wurden auch unvollständig überlieferte, in der Edition ergänzte Wörter berücksichtigt. Bei den Indices der Namen und Orte dagegen werden die Einträge nach Inschriften getrennt aufgeführt. Die beiden Indices nominum sind aufgrund der lückenhaften Überlieferung nicht alphabetisch sortiert, sondern werden nach Personengruppen und innerhalb dieser nach ihrem ersten Erscheinen in der Inschrift aufgelistet.
