

Preface

Our central theme in Volume 14 of the *International Yearbook of German Idealism* is the relationship of Kant and representatives of German idealism to the continental rationalists. We have lined up an outstanding set of authors and book reviewers, and wish to express our gratitude to them for their contributions. Once again, we have relied on the editorial assistance of Jaroslaw Bledowski and Anne Mone Sahnwaldt, and owe thanks to them as well for their highly competent work.

The theme of Volume 15 will be “Psychology”.

Dina Emundts (Berlin) and Sally Sedgwick (Chicago)
