Cover: The graphic on the cover is a stylometric plot of the contributions in this book, illustrating the vocabulary and style used by its authors. The groupings hint at the extent to which the topics in the book are shared between the authors across their respective fields. The plot was generated by the editor of the book with the R package *stylo* (cf. *The R Journal* 2016, vol. 8:1) using the distribution of the 500 most common words in the book. The resulting tree (Cosine Delta distance) was subsequently retouched with FigTree and Inkscape, thereby assigning one colour per chapter.

Typesetting: Meta Systems Publishing & Printservices GmbH, Wustermark
Printing and Binding: CPI books GmbH, Leck
