List of the tables and figures

Figure 1.1 10% highest income earners pre-tax percentages of total income 1915–2017 — 3
Figure 1.2 Development in Gini-coefficient in selected EU countries since 2005 — 4
Table 3.1 The Central Human Capabilities — 36
Table 4.1 Development in the GINI-coefficient in equivalised disposable income before social transfers: pensions included in social transfers — 48
Table 4.2 80/20 ratio in selected EU countries since 2010 for all, and in 2019 also for the 65+ — 49
Table 4.3 At risk of poverty for men and women in selected EU countries, 2005 and 2019. — 50
Table 4.4 The pre-tax share of national income for the highest 1% earners — 51
Figure 4.1 Top 10% share of national income — 45
Figure 4.2 Development in top 10% net wealth share — 46
Figure 4.3 GINI-coefficient and GDP per inhabitant — 51
Table 5.1 Gender pay gap in unadjusted form — 58
Table 5.2 Raw and weighted gender wage gap for a number of European countries in 2014 — 60
Table 5.3 Percentage of people at risk of poverty, for men and women in selected EU countries, 2005 and 2019 — 61
Figure 5.1 Gender equality index for EU countries in 2019 — 64
Table 6.1 Differences in life-expectancy at birth in a number of EU countries in 2007 and 2018 — 68
Table 6.2 Frequency of alcohol consumption on a daily and weekly basis in 2014 in selected countries — 72
Table 6.3 Daily smoking dependent on sex and educational attainment level in 2014 — 73
Figure 6.1 GINI-coefficient, public sector spending and Life-expectancy — 67
Figure 6.2 Proportion of the population who have forgone health care due to affordability in 2014 — 70
Figure 6.3 Perceptions of being in good health dependent on income level. — 72
Table 7.1 Educational attainment level since 2010 in selected EU-member states. — 77
Table 7.2 Changes in educational attainment level 2010 to 2019 and differences between men and women — 78
Figure 7.1 Percentages who have participated in Education and Training Last 4 weeks, EU, 2010–2019 — 79
Figure 7.2 Educational attainment of 30–44 and 45–59 year-olds, by parents’ educational attainment (2012 or 2015) — 80
Figure 7.3 Relation between education and GINI in equivalised disposable income within EU 28 countries — 71
Table 8.1 Differences in employment rate between men and women for 20 – 64 years of age in the EU and selected countries since 2000

Table 8.2 Employment rate 20 – 64 years of age in 2019 dependent on educational attainment levels.

Table 8.3 Median equivalised net income in EURO in purchasing power parities dependent on educational attainment level in 2019 for 18 – 64 years of age

Table 8.4 Differences in unemployment due to gender, educational attainment and age in EU28 in 2019

Table 8.5 Unemployment and country of birth

Table 8.6 Development in net replacement rate for selected EU-countries and the OECD since 2001

Figure 8.1 Unemployment and inequality in EU-countries

Figure 8.2 Unemployment and inequality before social transfers in 28 EU-countries

Figure 8.3 Jobs at risk of automation in OECD countries

Table 9.1 Difference in employment rate native and foreign born in selected years since 2009

Table 9.2 Unemployment rates for Non-Eu28 persons and Totals in 2019 and differences between these groups

Table 9.3 At risk of poverty after social transfers for EU citizens and non-EU citizens in 2018 for selected EU-countries.

Table 9.4 Mean net-income in 2016 in selected EU-countries for EU citizens and non-EU citizens for all, male and females.

Table 9.1: The 10 happiest countries 2013 – 2015 and position of inequality in happiness.

Figure 10.2 Proportion of women in parliament in EU countries and average within OECD and development since 2012.

Figure 10.3 Participation in elections foreign-born and native born population, 2008 – 2016

Figure 10.4 Development in levels of wellbeing for the richest and the poorest 2008 – 2018.

Figure 11.1 Gini and tax-revenue in EU-countries

Figure 11.2 Relation between Gini coefficient and social security spending in the EU.

Figure 11.3 Differences in household income inequality pre and post-tax and government transfers in OECD-countries 2016

Figure 12.1 If higher economic equality – then what?

Figure 12.2 What is well-being equality influenced by?

Table 13.1 Types of instruments within short- or long term and direct or indirect dimensions
### Table 13.2
Coefficient of variations across EU in the Gini coefficient 2010–2019

### Figure 13.1
Development in inequality in six welfare regimes since 2000
