

Acknowledgments

This volume originates from a panel at the Celtic Conference of Classics in St Andrews in 2018. We are grateful to the organizers for having made the event possible. The volume is part of the VIDI research project “Mediated Cicero” (Principle Investigator: Christoph Pieper), generously funded by the Dutch Research Council (NWO), funding no. 276–30–013. The editors are grateful to all authors for their quick cooperation. Cornelis van Tilburg has kindly helped us with the bibliography and has produced the indices, and Jikke Koning has read the whole manuscript and saved us from several errors. A special word of thanks is due to the board of De Gruyter’s *Cicero*-series and two anonymous peer reviewers for their valuable suggestions and most of all to executive editor Ermanno Malaspina for his kind interest in this book, his generous *Mitdenken* with this volume’s content ever since we submitted our book proposal, and his sharp eyes that have saved us from many errors.
