Acknowledgments

I am grateful to all those people who have read parts of the book or the entire manuscript and helped me with their feedback: Gordon Campbell, Philip Hardie, Katerina Oikonomopoulou, Theodore Papanghelis, Sotiris Paraschas, Chiara Thumiger. I have benefited tremendously from the friendship of my colleagues at the Department of Philology in Patras: special thanks are due to Aristoula and Katerina. The book would not have been written without the support and patience of Antonios Rengakos: I owe him a lot.

The book is dedicated to the people I love; they know who they are, so no need of lists of names here. Meropi, Savvas, Olga and Marilia are a league of their own: a concilium to treasure like no other.
