Contents

Preface — V

List of figures — XXI

List of illustrations — XXV

List of maps — XXVII

1 Introduction — 1
  1.1 Language changes — 1
  1.2 Illustration of language change — 2
  1.3 Linguistic changes – An overview — 2
    1.3.1 Variation and philology — 4
    1.3.2 Sound change — 5
    1.3.3 Analogical change — 6
    1.3.4 Lexical borrowing and other contact changes — 6
    1.3.5 Semantic change — 7
    1.3.6 Syntactic change — 8
  1.4 Linguistic change and language relationship — 8
  1.5 A note on “language”, “dialect”, and speakers — 11
  1.6 A brief methodological note — 12

2 Phonetics, transcription, terminology, abbreviations, glosses — 13
  2.1 Phonetics — 13
    2.1.1 Stops and place of articulation — 14
    2.1.2 Fricatives and sibilants — 15
    2.1.3 Voicing and aspiration — 16
    2.1.4 Obstruents vs. sonorants; syllabic vs. nonsyllabic — 18
    2.1.5 Liquids — 19
    2.1.6 Nasals and nasalization, stops vs. continuants — 19
    2.1.7 Semivowels/glides; consonantal vs. vocalic — 20
    2.1.8 Vowels – high/low, front/back — 21
    2.1.9 Vowels – long/short, diphthong/monophthong, etc. — 22
    2.1.10 Secondary articulations — 23
    2.1.11 Suprasegmentals — 24
    2.1.12 Syllables, moras, and boundaries — 24
2.2 Transcription — 26
2.2.1 Phonetic transcription — 27
2.2.2 Transcription of specific languages — 28
2.3 Notation of changes, generalizations — 29
2.4 Phonology – Contrast, phoneme, allophone/alternant — 30
2.5 Morphology — 32
2.6 Other terminology and concepts — 32
2.7 Abbreviations and symbols — 33
2.7.1 Abbreviations and symbols for sound change and phonological formulations — 33
2.7.2 Morphological and syntactic abbreviations — 34
2.7.3 Language abbreviations — 36

3 Sound change: The regularity hypothesis — 38
3.1 Grimm’s Law, Verner’s Law, Grassmann’s Law, and the Regularity Hypothesis — 38
3.2 The Regularity Hypothesis — 45
3.3 Apparent exceptions — 47
3.3.1 Other sound changes — 47
3.3.2 Analogy and the uniformitarian hypothesis — 49
3.3.3 Borrowing — 52
3.3.4 Fast speech, onomatopoeia, taboo — 54
3.4 Attacks on the regularity hypothesis — 55
3.5 Conclusions and outlook — 58

4 Sound change and its phonological implications — 60
4.1 Subphonemic change; merger and split — 60
4.2 Phonological merger and split — 61
4.3 Merger and split vs. contraction and diphthongization — 66
4.4 Neutralization — 66
4.5 Contrast and “margin of safety” – Polarization — 68

5 Types of sound change — 70
5.1 Typically regular sound changes — 70
5.1.1 Assimilatory changes — 70
5.1.2 Lenition/weakening — 91
5.1.3 Loss — 96
5.1.4 Timing and control — 104
5.1.5 Remarks on assimilation, weakening, loss, timing, and control — 127
5.2 Typically irregular changes: Dissimilation, metathesis, distant assimilation — 128

5.2.1 Dissimilation — 129
5.2.2 Metathesis — 131
5.2.3 Distant assimilation — 132
5.2.4 Regular dissimilation, metathesis, and distant consonant assimilation — 133

5.3 Instability of segments and clusters — 139

5.3.1 Liquids — 139
5.3.2 Sibilants — 141
5.3.3 Voiceless velar and glottal fricatives — 142
5.3.4 The dental fricatives [θ] and [ð] — 143
5.3.5 Palatalized labials, [rɪ], labiovelar segments — 144
5.3.6 The semivowel [w] — 146
5.3.7 Labials — 146
5.3.8 Dental/alevolar nonsibilant obstruents + l and voiced stop + homorganic nasal — 147
5.3.9 Unrounding of front rounded segments and features — 148
5.3.10 Syllabic liquids and nasals — 149
5.3.11 Consonant clusters — 150
5.3.12 Vowel clusters or hiatus — 152

5.4 Other changes — 152

5.4.1 Excrecence — 153
5.4.2 Effects of consonants on vowels — 153
5.4.3 Geminate strengthening — 155
5.4.4 Initial strengthening — 156

5.5 Sound change: Structure and function — 158
5.5.1 Contrast and neutralization — 159
5.5.2 “Functional load” — 160
5.5.3 Phonological symmetry, economy, margin of safety — 161
5.5.4 Chain shifts — 165
5.5.5 Phonological pattern; conspiracies — 169
5.5.6 Teleology? — 172

5.6 Tonogenesis and other suprasegmental changes — 175

5.6.1 Consonantal quality and tonogenesis — 175
5.6.2 Contraction and tonogenesis — 179
5.6.3 Pitch-accent melody, pitch assimilation, and tonogenesis — 179
5.6.4 Loss with compensatory tone — 181
5.6.5 Overlength and tone — 183
5.6.6 OCP and alternating accent — 184
5.6.7 Accent, weight, and accent protraction — 184
5.6.8 Utterance finality, verb finality, accent retraction, and other developments — 186

6 Analogical and phonological change — 191
6.1 Traditional analogy — 192
6.1.1 Systematic processes – Leveling and four-part analogy — 192
6.1.2 Non-systematic processes — 211
6.1.3 Analogy and phonological contrast — 226
6.2 Tendencies of analogical change — 229
6.2.1 Basicness and markedness, and the sphere of usage — 229
6.2.2 The status of relics — 239
6.2.3 Morphological distinctness and the polarity of language — 243
6.3 Analogy and phonological change — 248
6.3.1 Background information on generative phonology — 250
6.3.2 Historical change and synchronic rules — 252
6.3.3 Generative phonology, linguistic change, and rule extension — 255
6.3.4 Rule reordering, transparency, and opacity — 267
6.3.5 Rule reordering and relative chronology — 270
6.3.6 Morphological opacity and the polarity of language — 273
6.3.7 Summary and conclusions for section 6.3 — 277
6.4 A tentative typology of changes that affect phonological structure — 277

7 Morphological change — 279
7.1 Compounding and related phenomena — 279
7.1.1 A survey of compounds and related phenomena — 280
7.1.2 Developments in compound structures — 292
7.1.3 Remarks on the origins of compounds — 301
7.2 Periphrases, reinforcements, collocations, and morphological change — 305
7.2.1 Adverbs, adpositions, case reinforcement, and periphrasis — 305
7.2.2 Reinforcements in deictics and in affixes — 307
7.2.3 Verbal collocations — 309
7.3 Renewal and continuity in morphological systems — 327
7.3.1 Compensatory developments responding to morphological loss or attrition? — 327
7.3.2 Change and renewal in “volatile” morphological categories — 330
7.4 Clitics, affixes, and exponentence — 342
7.4.1 Clitics and other sources for affixation — 343
7.4.2 Exponence and morphological change — 349
7.5 “Cycles” and “clines” in morphological change — 351
7.5.1 The Grammaticalization Cline or Cycle — 352
7.5.2 The Grammaticalization Cline and Auxiliaries vs. Light Verbs — 354
7.5.3 Negation and the “Jespersen Cycle” — 357
7.5.4 Typology and the “Morphological Cycle” — 358
7.6 Paradigms, morphological systems, and morphological change — 361
7.7 Language contact and morphological change — 366

8 Semantic change — 369
8.1 Polysemy, semantic overlap, and the issue of “core” meanings — 370
8.2 Synonymy and homonymy — 373
8.3 Is there a direct relation between sound and meaning?
Or: The arbitrary nature of the linguistic sign — 374
8.4 Factors responsible for semantic change — 375
8.4.1 Metaphoric use of language — 375
8.4.2 Avoidance of synonymy and semantic differentiation — 377
8.4.3 Avoidance of excessive homonymy — 379
8.4.4 Taboo — 380
8.4.5 Onomatopoeia — 383
8.4.6 Synaesthesia — 385
8.4.7 Change in linguistic structure and semantic change — 389
8.4.8 Nonlinguistic factors and semantic change — 391
8.4.9 Reinterpretation — 394
8.5 Some general effects and tendencies of semantic change — 395
8.5.1 Phatic communion, politeness, honorificity — 395
8.5.2 Some pervasive effects of social attitudes — 398
8.5.3 Sweeping and systematic effects of semantic change — 400
8.6 Conclusions and outlook — 406

9 Lexical borrowing — 408
9.1 The substance of borrowing — 410
9.2 Dialect borrowing — 417
9.3 Foreign borrowing — 418
9.3.1 Phonological nativization — 418
9.3.2 Lexical nativization — 426
9.3.3 Nativization of inflectional morphology and gender assignment — 429
9.4 Borrowing from a linguistic ancestor — 433
9.5 Motivations for borrowing — 434
  9.5.1 Need — 434
  9.5.2 Prestige — 435
  9.5.3 Adoption vs. adaptation – Prestige vs. linguistic nationalism — 437
9.6 The effects of borrowing — 446

10 Lexical change — 451
  10.1 An overview of relevant linguistic processes — 451
  10.2 Special language uses that favor lexical change and its outcomes — 458
    10.2.1 Jargons — 459
    10.2.2 Slang — 465
    10.2.3 Argots — 469

11 Syntactic change — 473
  11.1 Prosodic syntax — 474
    11.1.1 A prosodic explanation of Vedic Sanskrit vocative accent — 477
    11.1.2 Wackernagel’s Law and P2 — 478
    11.1.3 Wackernagel’s Law, different domains, and linguistic change — 483
    11.1.4 Concluding remarks on prosodic syntax — 485
  11.2 Morphosyntactic change — 485
    11.2.1 Agreement — 486
    11.2.2 Verbal prefixation, adpositions, and case control — 489
    11.2.3 Differential argument marking — 493
  11.3 Change in word order — 500
    11.3.1 Word order change in Hebrew — 501
    11.3.2 SOV to V2 (and beyond) in Germanic and other languages — 502
    11.3.3 Consequences of the change to SVO in English — 518
    11.3.4 Wackernagel, univerbation, and SOV → VSO in Insular Celtic — 521
  11.4 Typology, word order, and the syntax of complex sentences — 525
    11.4.1 A critical examination of word and clause order correlations — 526
    11.4.2 Typology and syntactic change — 531
    11.4.3 How strict is “strict” OV? Historical implications — 534
    11.4.4 Further developments of relative-correlatives — 543
  11.5 Changes in the syntax of grammatical relations — 551
    11.5.1 Passive and change in passive constructions — 551

14  Comparative linguistics and reconstruction — 763
14.1  Establishing linguistic relationship and the issue of long-distance relationships — 765
14.1.1 The problem of false friends — 768
14.1.2 Solutions to the problem of “false friends” — 772
14.1.3 “Unrelated” languages and “long-distance” relationships — 782
14.2  Reconstruction — 791
14.2.1 General issues of methodology — 792
14.2.2 Phonological reconstruction — 796
14.2.3 Morphological and syntactic reconstruction — 815
14.2.4 Reconstruction, variability, and dialectology or subgrouping — 827
14.2.5 Problems and controversies in reconstruction — 836
14.2.6 Typology and reconstruction — 847
14.2.7 The issue of confidence and realism in reconstruction — 860
14.3  Linguistic palaeontology and ideology — 866
14.3.1 Preliminaries — 868
14.3.2 Religion and society — 869
14.3.3 Material culture — 873
14.3.4 Economy — 874
14.3.5 Horses, wheels, and chariots — 878
14.3.6 On the time and original home (“Urheimat”) of the Indo-Europeans — 884
14.3.7 Genetics, Genomics, and “Race” — 894
14.3.8 Ideology vs. comparative linguistics and linguistic palaeontology — 901
14.3.9 Conclusions and outlook for Section 14.3 — 903

15  Linguistic change: Its nature and causes — 905
15.1  “Decay”, “progress”, and the Uniformitarian Principle — 907
15.2  Neogrammarian views on the nature of linguistic change — 909
15.3  Neogrammarian views on the causes of linguistic change — 911
15.4  Language transmission as a cause of change — 913
15.5  Functionalism — 915
15.6  The linguistic unpredictability of linguistic change — 916
15.7  Further problems — 917
15.7.1 Is sound change gradual and imperceptible? — 917
15.7.2 Typically irregular sound change — 919
15.7.3 Are sound change and analogy fundamentally different? — 919
15.8  The anti-regularist position I — 920
15.9 The anti-regularist position II – Schuchardt and beyond — 921
15.10 Lexical diffusion — 923
15.11 Labov and the sociolinguistic motivation of change — 925
15.12 The issue of regularity revisited — 928
15.13 Other ramifications of the Labovian approach — 930
15.14 Conclusions and outlook — 934
