APPENDIX TO:
VIRAL LOBBYING
Strategies, Access and Influence during the COVID-19 Pandemic
Contents

Chapter 3
Issue Mobilisation — 1
  Table A3.1 – Explaining issue mobilisation (Mobilisation success: logit; Mobilisation pace: ordered logit; Mobilisation intensity: negative binomial — 1

Chapter 4
Strategy selection — 3
  Table A4.1 – Explaining frequency of inside and outside strategy use (ordered logistic regression) — 3
  Table A4.2 – Explaining frequency of use of survival strategies (ordered logistic regression) — 4

Chapter 5
Access to Gatekeepers — 7
  Table A5.1 – Explaining frequency of access to different venues (ordered logistic regression) for 2020 survey — 7
  Table A5.2 – Explaining frequency of access to different venues (ordered logistic regression) for 2021 survey — 9
  Table A5.3 – Explaining if interest group was contacted by policymakers for each polity (logit regression) (2020) — 11
  Table A5.4 – Explaining frequency by which interest groups were contacted by policymakers and the media (ordered logit regression) (2021) — 12

Chapter 6
Lobbying influence — 14
  Table A6.1 – Explaining lobbying influence using three proxies (OLS regression) — 14

Chapter 7
Interest Groups’ Experiences with Lobbying during the Pandemic — 16
  Focus Group – Briefing Document — 16
  Introduction — 17
  Membership and supporters — 17
  Advocacy and influence — 18
  Input to the questionnaire — 18
Debriefing — 19
Sampling frame for focus groups: Type of Membership, Policy Area and Definition of Membership — 19
Overview of organisations — 20
Table A7.1: Focus group composition: Denmark — 20
Table A7.2: Focus group composition: Ireland — 21
Table A7.3: Focus group composition: Netherlands — 21

References — 22
