Contents

Toru Tsukioka
On weak Fano manifolds with small contractions obtained by blow-ups of a product of projective spaces — 451

Luca Battistella and Francesca Carocci
A geographical study of $M_{1}(\mathbb{P}^2, 4)^{\text{main}}$ — 463

E. Morales-Amaya, J. Jerónimo-Castro and D. J. Verdusco Hernández
A characterization of centrally symmetric convex bodies in terms of visual cones — 481

Alexander A. Ivanov
Closed Majorana representations of $(3, 4)^{\ast}$-transposition groups — 487

Yaning Wang
Real hypersurfaces in $\mathbb{C}P^2$ and $\mathbb{C}H^2$ with constant scalar curvature — 495

Lenny Fukshansky and Siki Wang
Positive semigroups in lattices and totally real number fields — 503

Auguste Hébert
A new axiomatics for mesures II — 513

Rainer Löwen
Helmut Salzmann and his legacy — 525

Linus Kramer
Some remarks on proper actions, proper metric spaces, and buildings — 541

Rainer Löwen
Regular parallelisms on $\text{PG}(3, \mathbb{R})$ from generalized line stars: the oriented case — 561

Günter F. Steinke
A note on the Kleinewillinghöfer types of 4-dimensional Laguerre planes — 579

Harald Löwe
Sixteen-dimensional compact translation planes with automorphism groups of dimension at least 35 — 591
