DE GRUYTER

The B.E. Journal of Theoretical Economics (BEJTE) welcomes submissions in all areas of economic theory, both applied and „pure“ theory. Contributions can be either innovations in economic theory or rigorous new applications of existing theory. Pure theory papers published in the journal include, but are by no means limited to, those in behavioral economics and decision theory, game theory, general equilibrium theory, and the theory of economic mechanisms. Applications could encompass, but are not restricted to, contract theory, public finance, financial economics, industrial organization, law and economics, and labor economics.
