Addendum to “Three-dimensional reconstruction of individual helical nano-filament structures from atomic force microscopy topographs”

Liisa Lutter, Christopher J. Serpell, Mick F. Tuite, Louise C. Serpell, Wei-Feng Xue

In the published article “Three-dimensional reconstruction of individual helical nano-filament structures from atomic force microscopy topographs. Lutter L, Serpell C. J., Tuite M. F., Serpell L. C., Xue W.-F. BioMol Concepts 2020 March 30:11:102-115. doi: 10.1515/bmc-2020-0009”, the conflict of interest is not explicitly stated. When authors submit a manuscript to Biomolecular Concepts, they are responsible for recognizing and disclosing financial and/or other conflicts of interest that might bias their work and/or could inappropriately influence his/her judgment. If no specified acknowledgement is given, the Editors assume that no conflict of interest exists. The conflict of interest statement for the above article is:

Conflict of interest: The authors declare no conflicts of interest.

The authors confirmed the above statement.
