Retraction of: Jean-Pierre Raymond, Stabilizability of Infinite-Dimensional Systems by Finite-Dimensional Controls, Comput. Methods Appl. Math. 19 (2019), pp. 797–811, DOI: 10.1515/cmam-2018-0031.

The Editors and the Publisher of Computational Methods in Applied Mathematics retract from publication the above-mentioned article. Due to technical reasons and the erroneous assignment of different DOI numbers an identical version of this paper was published in an earlier issue of the journal (Comput. Methods Appl. Math. 19 (2019), pp. 267–282, DOI: <https://doi.org/10.1515/cmam-2019-0026>). Hence the version of the article that was published later is herewith retracted.
