i-com is an interdisciplinary professional forum devoted to the area of interactive media. It aims at scientists from all fields, business practitioners and interested parties involved with user-appropriate design, development and application of new information and communication technologies. The journal focuses on papers which aim at improving life and work in the networked world by adapting technologies and applications to human requirements. Disciplines addressed by the journal include computer science, media design, psychology, labor and organizational studies, sociology, business management and marketing/branding.
