The *Journal of Globalization and Development* (JGD) publishes academic research and policy analysis on globalization, development, and in particular the complex interactions between them. The journal is dedicated to stimulating a creative dialogue between theoretical advances and rigorous empirical studies to push forward the frontiers of development analysis. It also seeks to combine innovative academic insights with the in-depth knowledge of practitioners to address important policy issues. JGD encourages alternative perspectives on all aspects of development and globalization, and attempts to integrate the best development research from across different fields with contributions from scholars in developing and developed countries.

ISSN 2194-6353 · e-ISSN 1948-1837
