Retraction

Retraction of: Pre-operative tranexemic acid vs. etamsylate in reducing blood loss during elective cesarean section: randomized controlled trial

https://doi.org/10.1515/jpm-2023-0333
Published online September 25, 2023

The retraction became necessary because the statistics in the article are unfounded and obviously falsified, and because significant ethical concerns arose after publication. The editors and publisher sincerely regret the situation and wish to apologize for any inconvenience this may have caused.
