Retraction

Retraction of: Lidocaine vs. tramadol vs. placebo wound infiltration for post-cesarean section pain relief: a randomized controlled trial

https://doi.org/10.1515/jpm-2023-0334
Published online September 22, 2023

The retraction became necessary because the statistics in the article are unfounded and obviously falsified, and because significant ethical concerns arose after publication. The editors and publisher sincerely regret the situation and wish to apologize for any inconvenience this may have caused.
