Erratum to: Controlling the plasmon resonance via epsilon-near-zero multilayer metamaterials

<https://doi.org/10.1515/nanoph-2022-0372>

Published online July 11, 2022

After the publication of this article, the authors found that Figure 2d is the same as Figure 3d and hereby correct Figure 2 as:

Author contributions: All the authors have accepted responsibility for the entire content of this submitted manuscript and approved submission.

Research funding: None declared.

Conflict of interest statement: The authors declare no conflicts of interest regarding this article.

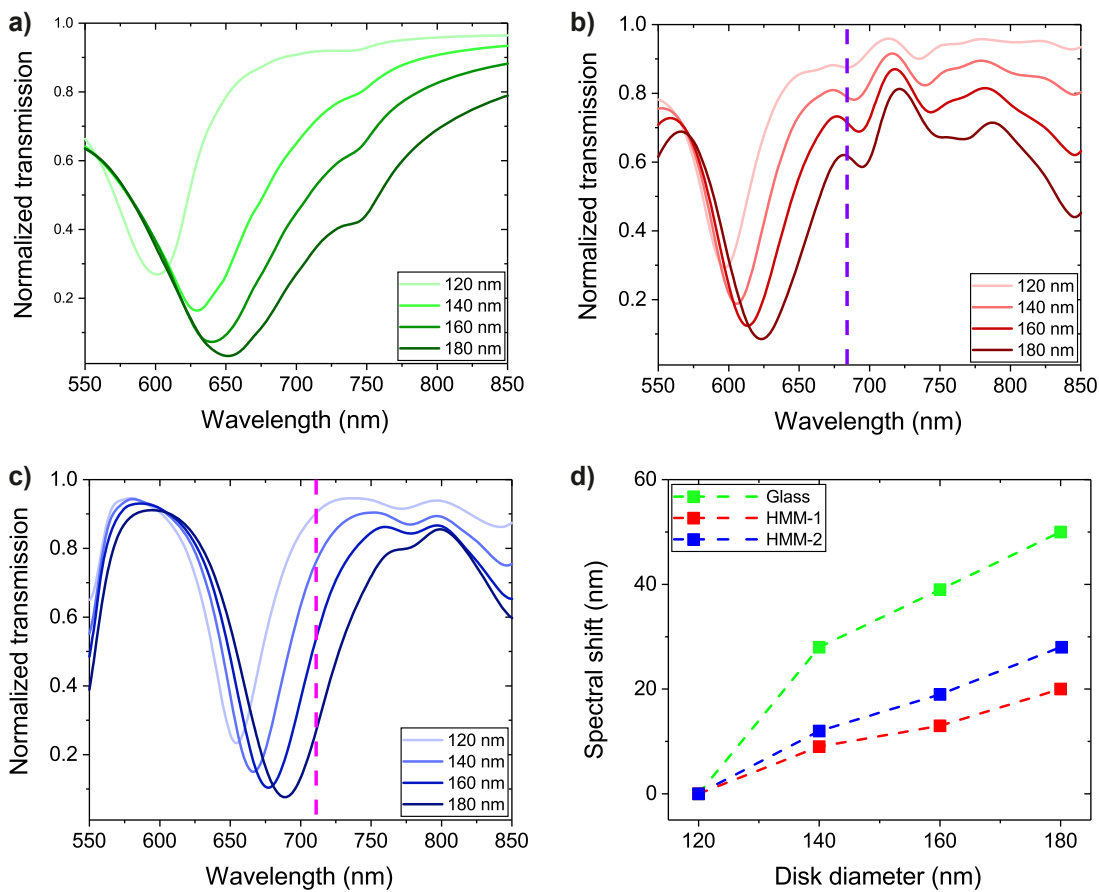

Figure 2: Evolution of the plasmon resonance with varying diameters of NDs on (a) glass (b) HMM-1, (c) HMM-2, and (d) spectral shift of the resonance, calculated by FDTD simulations. FDTD, finite-difference time-domain; HMM, hyperbolic metamaterial; ND, nanodisk.
