Special Issue on *Indeterminacies and mismatches in grammatical systems*

<https://doi.org/10.1515/zfs-2020-2022>

This issue is the first special issue of *Zeitschrift für Sprachwissenschaft* to be published exclusively online, as a third issue complementing this year's two regular issues. ZS online-only issues are meant to offer a forum for one of the AGs (workshops) that are part of the annual conference of the *Deutsche Gesellschaft für Sprachwissenschaft* (DGfS, the Linguistic Society of Germany) to publish selected contributions of their AG. The present issue has emerged from the Workshop *Contrast and Opposition in 'Free' Phenomena*, organized by the guest editors Volker Struckmeier and Andreas Pankau and held at the 41st Annual Conference in Bremen, in March 2019.
