

Statistics & Decisions

Volume 14 · Issue 4 · 1996

P. Bertrand, Yu. A. Kutoyants

A minimum distance estimator for partially
observed linear stochastic systems 323

L. Mattner

Optimal unbiased means, polynomial moment relations,
and natural exponential families 343

J. Schultze, J. Steinebach

On least squares estimators of an exponential tail coefficient 353

M. Happacher, F. Pukelsheim

Rounding probabilities : unbiased multipliers 373

V. Dobrić, B. K. Ghosh

Some analogs of the Berry-Esséen bound for
first-order Chebyshev-Edgeworth expansions 383

S. Basu

Local sensitivity, functional derivatives and nonlinear posterior quantities 405

Book reviews 419

Referees of Volume 14 (1996) of S & D 427

Author Index of Volume 14 429
