*Preface* vii

*Acknowledgments* xi

## *Part I: Getting into Qualitative Research*

1. Introducing Qualitative Hypothesis-Generating Research:  
The Yeshiva University Fatherhood Project 3

## *Part II: Planning Your First Research Study*

2. Designing Hypothesis-Generating Research: The Haitian  
Fathers Study 13
3. Qualitative and Quantitative Research as Complementary  
Strategies 22

## *Part III: Analyzing Your First Research Study*

4. Coding 1: The Basic Ideas 31
5. Coding 2: The Mechanics, Phase 1: Making the Text  
Manageable 42
6. Coding 2: The Mechanics, Phase 2: Hearing What  
Was Said 54
7. Coding 2: The Mechanics, Phase 3: Developing Theory 67
8. Convincing Other People: The Issues Formerly Known  
as Reliability, Validity, and Generalizability 77

## *Part IV: Designing and Analyzing Your Next Research Study*

9. Designing Your Next Study Using Theoretical Sampling:  
The Promise Keeper Fathers 91
10. Analyzing Your Next Study Using Elaborative Coding:  
The Promise Keeper Fathers 104

*Part V: Final Thoughts*

11. The “Why” of Qualitative Research: A Personal View 125

Appendix A: Simplifying the Bookkeeping with Qualitative Data  
Analysis Programs 131

Appendix B: The Haitian Fathers Study 139

Appendix C: The Promise Keepers Study 168
