Received 23 July 2009; Accepted 5 October 2009; Published 16 December 2009

It has been brought to our attention that in the article "SAECG in Exercise Test for Prediction of Diabetic Coronary Artery Disease", published in Central European Journal of Medicine, data fabrication and falsification might have taken place.

The editors of CEJMed consider this an infringement of professional ethics and therefore the decision has been made to retract the article.

Dr Amir Aslani accepts full responsibility for this unfortunate situation and is deeply sorry for any inconvenience this may have caused to the reviewers, editorial and publishing staff of Central European Journal of Medicine. An apology is also extended to the readers.

This article should be considered as retracted.
