THE FINANCE CRISIS AND RESCUE:

What Went Wrong? Why? What Lessons Can Be Learned?

The 2008 global financial crisis affects everyone, but its root causes and potential cures are confusing to many. This compilation of expert views from the University of Toronto's Rotman School of Management explores what went wrong and why, and considers the lessons that these events can teach businesspeople, policy makers, and the general public alike.

The Finance Crisis and Rescue features essays from ten leading Rotman professors and renowned journalist Michael Hlinka, and includes a foreword by Rotman Dean Roger Martin. These intellectual leaders from the front lines of business thinking tackle the subject from a number of angles, analysing the crisis from the perspective of their diverse backgrounds in fields such as structured finance, behavioural finance, value investing, pension management, risk management, corporate governance, public policy, and leadership.

A timely and considered response to current events, *The Finance Crisis and Rescue* will be of interest to anyone concerned with recent global financial developments.
