

INTERNATIONAL SURROGACY
AS DISRUPTIVE INDUSTRY IN
SOUTHEAST ASIA

MEDICAL ANTHROPOLOGY: HEALTH, INEQUALITY, AND SOCIAL JUSTICE

Series editor: Lenore Manderson

Books in the Medical Anthropology series are concerned with social patterns of and social responses to ill health, disease, and suffering, and how social exclusion and social justice shape health and healing outcomes. The series is designed to reflect the diversity of contemporary medical anthropological research and writing, and will offer scholars a forum to publish work that showcases the theoretical sophistication, methodological soundness, and ethnographic richness of the field.

Books in the series may include studies on the organization and movement of peoples, technologies, and treatments, how inequalities pattern access to these, and how individuals, communities, and states respond to various assaults on well-being, including from illness, disaster, and violence.
