DICKINSON LECTURES IN ACCOUNTING

IN January 1929 the Arthur Lowes Dickinson Fund was established at the Harvard Graduate School of Business Administration by the firm of Price, Waterhouse & Co., "in recognition of the debt due by the accounting profession in general, and particularly by this firm, to a former partner, Sir Arthur Lowes Dickinson." The income from this Fund was for a number of years used exclusively for the purpose of conducting research in the field of accounting. In 1936 the provisions of the Fund were modified to provide that "in addition there may from time to time be appointed, for one year, a man outstanding in accounting who shall deliver at the Graduate School of Business Administration one or more lectures, and shall be designated as Dickinson Lecturer."
