This book is printed on acid-free paper.

WE DEDICATE THIS BOOK to Ulysses S. Seal, world-renowned scientist and author, and conservationist extraordinaire. Colleague to all of us, and close friend to many of us, Ulie personified a true genius, breadth of knowledge, enthusiasm, dedication, and accomplishment that inspired us all. While long active in pursuing his interest in the ecology, behavior, and conservation of wolves, he also applied his keen mind and abundant energies to numerous other species, fostering their chances of survival and thus bettering the world. We thank him for this and for the unique opportunity to have worked with him.
