

## TABLES

- Table 2.1. APC-IE: White-Black SES Gap Is Due to “Inborn Disability” / 52
- Table 3.1. Cross-Generational Differences in Racial Resentment / 79
- Table 3.2. Intrinsic Estimates of Age-Period-Cohort Effects on Racial Resentment / 81
- Table 3.3. Test of Measurement Invariance across Age Groups (2012 ANES) / 85
- Table 3.4. Racial Resentment, Generational Status, and Stereotypes of Blacks as Violent / 90
- Table 3.5. Racial Resentment, Generational Status, and Stereotypes of Blacks as Lazy / 90
- Table 3.6. Racial Resentment, Generational Status, and Attitudes toward Racialized Targets / 93
- Table 4.1. Racial Background of Friend Groups / 127
- Table 5.1. Relationship between Policy Interpretation and Level of Support / 163
- Table 6.1. CoBRAS Racial Privilege / 188
- Table 6.2. CoBRAS Institutional Discrimination / 188
- Table 6.3. CoBRAS Blatant Racism / 190
- Table 6.4. PCRW Racial Empathy / 191
- Table 6.5. PCRW White Guilt / 192
- Table 6.6. PCRW Fear of Other Groups / 192
- Table 6.7. Explicit Racial Resentment across Generations / 193
- Table 7.1. Predicted Subscales for CoBRAS and PCRW / 197
- Table 7.2. Confirmatory Factor Analysis of CoBRAS / 197
- Table 7.3. Confirmatory Factor Analysis of PCRW / 199
- Table 7.4. Confirmatory Factor Analysis of Racial Resentment / 200
- Table 7.5. Confirmatory Factor Analysis of Conservative Ideology / 201

Table 7.6.	Predicting Old-Fashioned Racism: Whites as More Intelligent / 205
Table 7.7.	Predicting Old-Fashioned Racism: Whites as Harder Workers / 205
Table 7.8.	Predicting Old-Fashioned Racism: Blacks as More Violent / 206
Table 7.9.	Predicting Old-Fashioned Racism: Whites as More Trustworthy / 206
Table 7.10.	Predicting Support for Racialized Targets / 208
Table 7.11.	Correlations between Independently Estimated Dimensions / 212
Table 7.12.	Higher Order Factor Loadings / 213
Table 7.13.	Old-Fashioned Racism Predicted by Two Dimensions of Racial Attitudes / 217
Table 7.14.	Old-Fashioned Racism Predicted by Two Dimensions, by Generational Status / 218
Table 7.15.	Predicting Nonracialized Policy Positions by Generational Status / 219
Table 7.16.	Predicting Racialized Policy Positions by Generational Status / 220
Table 8.1.	FIRE by Generational Status / 229
Table 8.2.	Predicting Opposition to a Close Family Member Marrying Someone Who Is Not White / 234
Table A.1.	APC Table of Biological Racism (GSS) / 265
Table B.1.	Miles between Various American Cities (Truncated) / 270
Table C.1.	Interview Respondent Characteristics / 280
Table D.1.	APC-IE: Feelings regarding the Women's Liberation Movement / 285
Table D.2.	APC-IE: Affective Ratings of Gays and Lesbians / 286
Table D.3.	APC-IE: Pro-White Affect / 286
Table D.4.	APC-IE: Equalitarianism / 287
Table D.5.	APC-IE: Support for Men and Women Having Equal Roles (0/1) / 287
Table D.6.	APC-IE: Support Workplace Protections for Gays and Lesbians (0/1) / 288
Table D.7.	APC-IE: Support Workplace Protections for Blacks (0/1) / 288
Table D.8.	APC-IE: Support Women in the Workplace (0/1) / 289
Table D.9.	APC-IE: Support Affirmative Action for Blacks (0/1) / 289
Table D.10.	APC-IE: Support Affirmative Action for Blacks (0/1) / 290
Table D.11.	APC-IE: Support Affirmative Action for Women (0/1) / 290
Table D.12.	APC-IE: Support Ban on Interracial Marriage (0/1) / 291
Table D.13.	APC-IE: Oppose Relative Marrying Member of Another Race (0/1) / 291
Table D.14.	APC-IE: Agree Government Should Help Blacks (0/1) / 292
