

## *Illustrations*

Following page 130:

1. Robert S. Woodward
2. Henry S. Pritchett
3. James R. Angell
4. General Education Board
5. George E. Vincent
6. Edwin Embree
7. Arthur A. Noyes, George E. Hale, Robert A. Millikan
8. National Academy of Sciences Building under construction
9. National Academy of Sciences Building
10. Wickliffe Rose
11. Augustus Trowbridge
12. Halston J. Thorkelson

Following page 262:

13. IEB map of European centers of physics
14. IEB map of U.S. centers of physics
15. Raymond B. Fosdick
16. Max Mason
17. Kaiser Wilhelm Institute for Cell Physiology
18. Warren Weaver, University of Wisconsin
19. Warren Weaver in his office at the Rockefeller Foundation
20. Warren Weaver in retirement
21. Grasshopper culture, University of Iowa
22. Cell physiology laboratory, University of Iowa
23. Frances O. Schmitt
24. John Runnström

Following page 392:

25. The Svedberg
26. Ultracentrifuge, University of Uppsala
27. Linus Pauling
28. Electron diffraction apparatus
29. George W. Beadle and assistant

30. Dorothy Wrinch holding cyclol model
31. Spectroscopic biology laboratory, University of Chicago
32. Oscilloscope, Washington University
33. George von Hevesy
34. George von Hevesy, Niels Bohr, and high voltage accelerator
35. Medical cyclotron, University of California
