ILLUSTRATIONS

Figures

Figure 1.1 Tanglegram of Beethoven’s Erard.

Figure 3.1 Action models in customized cases of pianos by Anton Walter (Vienna, c. 1800; top) and Erard Frères (Paris, 1803), along with interchangeable revised action (bottom), built by Chris Maene (Ruiselede, 2016). Photo by Piet Meersschaut.

Figure 3.2 Action models of Walter (top) and Erard (bottom), with marks for slow-motion tracking.

Figure 3.3 Key-front behavior for Walter (left) and Erard (right).

Figure 3.4 Beginning of strike for Walter (left) and Erard (right): comparison of first (top) and second (bottom) runs.

Figure 4.1 Tracing una corda on an Erard grand. Drawing by Gregoir Basyn.

Figure 4.2 Latch to control keyboard shift in a 1798 Longman, Clementi & Co. piano. Photo by Jeremy Tusz.

Figure 4.3 Out-of-case spring in three positions. Drawings by Gregoir Basyn.

Figure 4.4 Pedal and knee-lever setups for (from top to bottom) Anton Walter (1800), Longman, Clementi & Co. (1798), John Broadwood & Son (1805), and Erard Frères (1803). Assembled on scale by Gregoir Basyn.

Figure 4.5 Words scribbled by Beethoven amid sketches for the first movement of Op. 58. Autograph 19e, fol. 33v. Printed with permission of the Staatsbibliothek zu Berlin.
Figure 4.6 Andante con moto, second part, from Beethoven’s Fourth Piano Concerto, Op. 58, arranged from the first edition (Vienna: Bureau des arts et d’industrie, 1808), with annotations.

Figure 5.1 Visiting the old Erard Frères premises in rue du Mail, Paris, February 21, 2018.

Figure 5.2 Production, sales, and resale figures for Erard Frères 1797-model grand pianos. Production figures from Maniguet (2009, 86); sales and resale figures gathered from Erard Frères sales books.

Figure 5.3 English (left) vs. Erard (right). Drawings by Gregoir Basyn.
Row 1: hammer-head for key c
Row 2: hammer mounting
Row 3: intersection of the action, for view of hopper padding and regulating screws
Row 4: two top keys, untouched and pressed down
Row 5: bass damper (key C)

Figure 5.4 Four pedals on Erard: (1) “mute” (front view); (2) “forte” (front view); (3) “stop of leather” (side view); (4) “one, two, or three chords” (top view). Drawings by Gregoir Basyn.

Figure 5.5 English (left) vs. Erard (right). Drawings by Gregoir Basyn.
Row 1: case bracing
Row 2: single-plank and laminated bentside
Row 3: selected thicknesses in soundboard
Row 4: ribbing of soundboard

Figure 6.1 Entry in the Erard ledger books of Haydn’s instrument: “orné / 28 / 2. 9bre 1800 / a Mr haydn a viene.” Reproduced with permission of Fonds Gaveau-Erard-Pleyel, owned by Groupe AXA and deposited at the Domaine royal de Randan.

Figure 7.1 Technical drawing added to an application of Erard Frères for a Brevet d’invention of a Forte-piano à son continu. 1BA1484. Institut national de la propriété industrielle.

Figure 7.2 (left) Walter tremolos: time difference between strikes, based on the average of three runs; (right) Erard tremolos: time difference between strikes, based on the average of three runs.

Figure 7.3. Power spectrum of c (top); decay analysis of fundamental tone c (bottom, left); decay analysis of first overtone c (bottom, right).

Figure 7.4 Spectral analysis of tremolo c/e (top, left); time-dependent changes in frequency spectrum of tremolos (top, right); spectral analysis of a tremolo on Erard with longer c vs. longer e (down, left); same with or without jeu céleste (down, right).
Figure 8.1  Beethoven, Sonata in C Major, Op. 53, first movement, mm. 1–42. First edition (Vienna: Bureau des arts et d’industrie, 1805), with annotations.

Figure 8.2  Exercise No. 48, from Adam (1804–5), 29.
Figure 8.3  Playing the slur (left) vs. playing the staccato (right).
Figure 8.4  Steibeltian footwork for Op. 53, first movement, 2nd theme (left); male fashion, illustration in Journal des dames et des modes 9, no. 53 (Paris, June 14, 1805) (right).

Figure 8.5  Power spectrum of a single C on Erard vs. Walter.

Figure 8.6  Op. 53, first movement, mm. 267–end. First edition (Vienna: Bureau des arts et d’industrie, 1805), with annotations.

Figure 9.1  Spectral analysis of tremolo (first movement, mm. 14–15) as performed on Erard and Walter.

Figure 9.2  My listening position at Op. 53, final movement, beginning.

Figure 9.3  Title page of Beethoven’s “Waldstein” Sonata, Op. 53 (Vienna: Bureau des arts et d’industrie, 1805).

Figure 10.1  Title page of Beethoven’s “Kreutzer” Sonata in A Major (Bonn: Simrock, 1805), Op. 47. Reproduced with permission of Beethoven-Haus, Bonn.

Figure 11.1  Sonata in C Major, Op. 53, final movement, mm. 456–77 (Vienna: Bureau des arts et d’industrie, 1805) (top); octave glissando in Czerny ([1846] 1970), 57 (middle); octave example in Adam (1804/5), 52 (bottom).

Figure 11.2  Beethoven’s Erard: revised key (left); repair of the old balance points (right).

Figure 11.3  Beginning of “normal” strike on revised Erard action model: second run.

Figure 11.4  Revised Erard tremolo: time difference between strikes, representing the first of three runs after a preliminary failure.

Figure 12.1  Piano builder Chris Maene and technician Minh Kapek at the Akademiezaal in Sint-Truiden, February 13, 2019.

Figure 12.2  Microphone setup for recording of Beethoven’s Erard. Drawing by Kseniya Kawko.

Musical Examples

Example 2.1  Beethoven, Sonata in A-flat Major, Op. 26, third movement, mm. 31–32.
Example 2.2 Beethoven, Sonata in C-sharp Minor, Op. 27 No. 2, first movement, mm. 1–5 (top); Sonata in D Minor, Op. 31 No. 3, first movement, mm. 21–25 (bottom).

Example 7.1 Adam, “Air Suisse nommé le ran[z] des vaches imitant les échos,” mm. 1–6 (top); Sonata in C Major, Op. 8 No. 2, second movement, mm. 49–53 (bottom).

Example 7.2 Tremolo for experiment, as prescribed (bottom) and as played (top).

Example 8.1 Beethoven, sketch, Landsberg 6, p. 97, st. 7–8.

Example 8.2 Beethoven, scale exercise, Landsberg 6, p. 107, st. 1–10, completed and with added fingering (top); C. P. E. Bach, C-major examples (1787, Tabula I) (bottom).

Example 8.3 Adam, “To connect chords” (1804–5, 61) (top); Steibelt, Sonata in G Major, Op. 64, first movement, mm. 43–46 (middle); Beethoven, Sonata in C Major, Op. 53, first movement, mm. 35–42 (bottom).

Example 8.4 Beethoven, Sonata in C Major, Op. 53, first movement, mm. 1–12: harmonic outline (“harmonischer Grundgeriss”) by Czerny (1832, 324) (top); rewritten as an Adagio tremolo (bottom).

Example 8.5 Beethoven, sketches, Landsberg 6, p. 120, st. 10–12, and p. 121, st. 11–12; and published Andante WoO 57, mm. 11–12.

Example 8.8 Beethoven, Sonata in C Major, Op. 53, first movement, mm. 242–51 and mm. 295–end.

Example 8.9 Tremolo as a structural principle in Op. 53, first movement.

Example 9.2 Beethoven, Sonata in F Minor, Op. 1 No. 1, second movement, mm. 1–4; Andante WoO 57, mm. 1–4 (dissonances are boxed).

Example 9.3 Beethoven, Sonata in C Major, Op. 53: alternative transition between Andante and final movement, for use in “Piano e.f.d. clavecin.”

Example 9.5 “//10” moments in Beethoven’s Sonata in C Major, Op. 53, “Piano e.f.d. clavecin”:

1. Sketch, Landsberg 6, p. 121, st. 8–9
2. Sketch, Landsberg 6, p. 121, st. 8–12
3. Finished version, second movement, mm. 1–8, reduction
4. Finished version, first movement, mm. 35–42, reduction
5. Finished version, first movement, mm. 196–203, reduction
6. Finished version, first movement, mm. 204–211, reduction
7. Sketch, Landsberg 6, third movement, p. 146, st. 1–2

Example 9.6 C major arpeggios: Adam, “singing chords” (1804–5, 152) (top); Beethoven, Sonata in C Major, Op. 53, first movement, mm. 112–16, with author’s fingerings (middle); Adam, exercise No. 282 (1813–22, part B, 104) (bottom).

Example 10.1 Adam, Sonata in C Major, Op. 8 No. 2, excerpts.

Example 11.1 Beethoven, Sonata in F Minor, Op. 57, third movement, mm. 86–102; with added fingering.

Example 11.2 Beethoven, Sonata in C Major, Op. 53, final movement, mm. 356–65 (top); Sonata in F Minor, Op. 57, third movement, mm. 20–39, with added fingering (bottom).

Example 11.3 Beethoven, Sonata in F Minor, Op. 57, first movement, mm. 1–4 and mm. 24–35.

Example 12.1 Beethoven, Sonata in C Major, Op. 53, final movement, mm. 400–404 and mm. 485–96, with Beethoven’s suggestions for the trill.

Example 12.3 Beethoven, Sonata in F Major, Op. 54:

1st system: first movement, mm. 1–8
2nd system: compared with Haydn, Sonata in G Minor Hob. XVI:44, second movement, mm. 1–2
3rd system: rewritten in archaic style
4th–5th systems: second movement, mm. 1–14
6th system: compared to Sonata in A-flat Major, Op. 25, final movement, mm. 1–3
Plates

Plate 1 Action models of (a) Anton Walter, c. 1800; (b) Erard Frères, 1803, original; and (c) revised, built by Chris Maene (Ruiselede, 2016). Photos by Piet Meersschaut.

Plate 2 Entire strike on Walter (top) and Erard (bottom) action models.

Plate 3 Willibrord Joseph Mähler, Beethoven in a park landscape, oil on canvas, 1804/5. Reproduced with permission of Wien Museum.

Plate 5 Replica of Beethoven’s Erard. Photos by Pieter Peeters.

Plate 6 The 1808 Amsterdam Erard. Reproduced with permission of the Rijksmuseum, Amsterdam.

Plate 8 Page 107 from Landsberg 6 (Beethoven’s “Eroica” Sketchbook). Notierungsbuch E 90. Reproduced with permission of Biblioteka Jagiellońska, Cracow.

Plate 9 Marks of revision in the action of Beethoven’s Erard (left and above); Nos. 4, 11a, 14b, 15b, and 17 are of the Brussels 1805 Erard.

Plate 10 Our replica next to Beethoven’s piano, Linz, April 10, 2019. Photo by Steven Maes.
