List of Figures

Muddy boots of CAP team members at the project base after a day in the field. — XV

Fig. 2.1: Average monthly temperatures and precipitation for Bartın (after Alex 1985: 55). — 10

Fig. 2.2: δ¹⁸O ‰ VPDB and δ¹³C ‰ VPDB isotopic measurements from Sofular cave from 14,000 BP (right) up to 2006 (source data: www.ncdc.noaa.gov). — 11

Fig. 2.3: Hypothetical reconstruction of the coastline of the Cide-Şenpazar region at -40 metres (ca. 10,000 BC) and -20 metres (ca. 6000 BC) in relation to the modern coastline (from ca. 3000 BC). Based on bathymetric data. Produced by Victor Klinkenberg. — 15

Fig. 2.4: Photograph from the 1950s showing pier and water taxis to the steamboat at Cide. From the album of Fikriye Doğan. Provided by Nesrin Şahin and Murat Karasalıhoğlu. — 19

Fig. 2.5: Sea currents in the Black Sea. Produced by Victor Klinkenberg. — 21

Fig. 2.6: Photograph from the 1950s: Cide town and surrounding landscape. Provided by Nesrin Şahin and Murat Karasalıhoğlu. — 22

Fig. 2.7: Geological makeup of the Cide and Şenpazar districts (from Uğuz et al. 2002 and Aksay et al. 2002) and the distribution of villages and hamlets (stars) in the research area. — 24

Fig. 2.8: Photograph from 1939 showing a newly constructed boat from Cide town being hauled to the sea by a group of men and water buffalos. Provided by Nesrin Şahin and Murat Karasalıhoğlu. — 25

Fig. 2.9: Locations of geoarchaeological investigations in the Cide-Şenpazar region. Produced by Toby C. Wilkinson. — 27

Fig. 3.1: Map of the Cide and Şenpazar region showing the main locations of towns and landmarks discussed in this chapter. Produced by Toby C. Wilkinson. — 50

Fig. 4.1: Map showing the CAP survey area. Produced by Toby C. Wilkinson. — 58

Fig. 4.2: Surveying parts of Okçular valley affected by erosion (CAP-P1/388). — 61

Fig. 4.3: Map showing areas covered by forest in the survey region. Produced by Toby C. Wilkinson. — 61

Fig. 4.4: Map showing areas above and below 15 degrees of slope. Produced by Toby C. Wilkinson. — 62

Fig. 4.5: Map showing CAP’s ‘effective’ survey region. Produced by Toby C. Wilkinson. — 63

Fig. 4.6: Data-entry and artefact documentation on the top floor of the Yalı Hotel. Photo by Imke van Hagen. — 64

Fig. 4.7: Recai Yılmaz talking to Michele Massa in the Gideros İnî I cave, which he brought us to in 2009. Photo by Renate de Boer. — 72

Fig. 4.8: An important invitation to drink çay by locals at Kuşçu (CAP-P2/0033). — 73

Fig. 4.9: Diagram showing (a) traditional linear transects, (b) undulating transects and (c) CAP’s meandering approach. — 76

Fig. 4.10: Google Earth satellite image of Okçular valley, showing the large-scale erosion on the eastern valley flanks. — 78

Fig. 4.11: Map of Okçular valley showing units surveyed in 2009–2011. Produced by Toby C. Wilkinson. — 79

Fig. 4.12: Map of the Loç valley showing a combination of arbitrary unit and survey areas defined by field boundaries and other landscape features. Produced by Toby C. Wilkinson. — 80

Fig. 4.13: Location of CAP grid-squares in Okçular valley. Produced by Toby C. Wilkinson. — 81

Fig. 4.14: Binary diagram of Ba/Zr-La/Th ratios for the Yağlar-Sakaeli/Orta obsidian outcrops and for the three studied artefacts. This diagram shows that one of the artefacts (L197) comes from the Yağlar region, while the two others (L136 and L224) come from the Sakaeli/Orta district. Produced by Bernard Gratuze. — 89
Fig. 4.15: Map showing soil sampling locations in grid G6 superimposed over the sherd count distribution showing high density in dark shades. —— 94

Fig. 5.1: Early Holocene finds locations in the CAP survey area. Produced by Toby C. Wilkinson. —— 111

Fig. 5.2: The distribution of Prehistoric chipped stone artefacts in the Okçular landscape. Produced by Victor Klinkenberg. —— 113

Fig. 5.3: The distribution of Prehistoric chipped stone artefacts in the Abdulkadir landscape. Produced by Victor Klinkenberg. —— 113

Fig. 5.4: Chipped stone cores found in the Okçular and Abdulkadir valleys. Produced by Lorraine McEwan. —— 115

Fig. 5.5: Chipped stone tools found in the Okçular and Abdulkadir valleys. Produced by Lorraine McEwan. —— 116

Fig. 5.6: Chipped stone cores found at Aybasan Mahallesi. Produced by Lorraine McEwan. —— 119

Fig. 5.7: Size distribution of the chipped stone artefacts found at Aybasan Mahallesi. Produced by Michele Massa. —— 120

Fig. 5.8: Chipped stone tools from Aybasan Mahallesi. Produced by Lorraine McEwan. —— 121

Fig. 5.9: Flint knife and chisel found at site S132 in the Çamdübi valley. Produced by Lorraine McEwan. —— 124

Fig. 5.10: C293 found in Unit 3. Handmade, mineral tempered. Produced by Lorraine McEwan. —— 127

Fig. 5.11: Plan of Okçular Kale İnî (S24). Produced by Michele Massa and Victor Klinkenberg. —— 129

Fig. 5.12: View of section through midden deposits at the back end of Okçular Kale İnî (S24) containing charcoal, bone, ash, lithics, and pottery in horizontal orientation. In the foreground Imke van Hagen, project member of CAP. Photo by Victor Klinkenberg. —— 130

Fig. 5.13: Chalcolithic ceramics found at Okçular Kale İnî (S24). Produced by Lorraine McEwan. —— 133

Fig. 5.14: Selected chipped stone artefacts from Okçular Kale İnî (S24). Produced by Lorraine McEwan. —— 135

Fig. 5.15: A selection of Prehistoric sherds from Derebağ Köy Mağarası (S188). Produced by Lorraine McEwan. —— 137

Fig. 5.16: Chalcolithic ceramics and chipped stone artefacts found at Kılıçlı Mağarası (S88/S93). Produced by Lorraine McEwan. —— 139

Fig. 6.1: Early Bronze Age sites in the CAP survey area. Produced by Toby C. Wilkinson. —— 153

Fig. 6.2: Plan of the upper chamber of Kılıçlı Mağarası (S88). Hatched areas are spoil heaps, illicit excavations are marked in black. Produced by Michele Massa and Victor Klinkenberg. —— 154

Fig. 6.3: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 155

Fig. 6.4: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 157

Fig. 6.5: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 158

Fig. 6.6: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 160

Fig. 6.7: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 161

Fig. 6.8: Early Bronze Age pottery from Kılıçlı Mağarası. Produced by Lorraine McEwan. —— 162

Fig. 6.9: Early Bronze Age pottery from Okçular Kale İnî and Derebağ Köy Mağarası. Produced by Lorraine McEwan. —— 164

Fig. 6.10: Early Bronze Age pottery from Okçular Kale İnî and Derebağ Köy Mağarası. Produced by Lorraine McEwan. —— 166

Fig. 6.11: Kılıçlı Mağarası, lower chamber (S93) (CAP-P2/1001). —— 170

Fig. 6.12: Downward climb into Kılıçlı Mağarası, upper chamber (S88) (CAP-P2/1010). —— 170

Fig. 7.1: Map showing the locations of second millennium BC finds. Produced by Toby C. Wilkinson. —— 185

Fig. 7.2: Second millennium BC pottery from the Cide region. Produced by Lorraine McEwan. —— 187

</table>
Fig. 10.12: Dressed blocks found between Irmakköy and Cide (S152; location 9a) (CAP-P1/4952). On the left a possible top moulding, the other two blocks could be elements of a door frame. — 280

Fig. 10.13: Top part of an Early Roman (?) tombstone, reading ΓΛΑΥΚΟΣ ΜΕΝΕΦΡΟΝΟΣ ΚΡωΜΕΝΙΤΕΣ (Glaukos, son of Menephron, from Kromna) (S208; location 9b?) (CAP-P15/402). — 281

Fig. 10.14: Photograph of a stone basin, with a wheel-like engraving on the short end and an outlet, perhaps a reused sarcophagus (S126; location 11) (CAP-P1/4890). — 283

Fig. 10.15: A ceiling cassette fragment from Kuşçu (S89; location 13) (CAP-P2/940). — 285

Fig. 10.16: Bridgehead along the Devrekani at Atköyprü. Note the wall in the lower part of the picture, which is part of the bridgehead on the eastern side (S95) (CAP-P3/262). — 285

Fig. 10.17: Fragments of narrow-necked amphorae from Cide, probably locally manufactured (S196; location 10b) (CAP-P1/5898). — 287

Fig. 11.1: Map of Byzantine settlements. Produced by Toby C. Wilkinson. — 303

Fig. 11.2: Byzantine sherd density map. Produced by Toby C. Wilkinson. — 304

Fig. 11.3: Byzantine tile density map. Produced by Toby C. Wilkinson. — 304

Fig. 11.4: Glazed table wares. Produced by Lorraine McEwan. — 306

Fig. 11.5: Unglazed table wares. Produced by Lorraine McEwan. — 308

Fig. 11.6: Kitchen wares. Produced by Lorraine McEwan. — 310

Fig. 11.7: Amphorae and tiles. Produced by Lorraine McEwan. — 311

Fig. 11.8: A reconstruction of Okçular Kale (S22). Produced by Victor Klinkenberg and Michele Massa. — 313

Fig. 11.9: Column base (S61) in Okçular village (CAP-P1/404). — 313

Fig. 11.10: Column Base (S77) in Okçular village (CAP-P2/699). — 314

Fig. 11.11: View of the valley from Okçular Kale (S22) (CAP-P-3/47). — 315

Fig. 11.12: Mortared Field Stones, Okçular Kale (S22) (CAP-P1/131). — 315

Fig. 11.13: Beam hole, Okçular Kale (S22) (CAP-P1/128). — 316

Fig. 11.14: Silo or water feature, Okçular 4 (S80) (CAP-P1/1223). — 318

Fig. 11.16: Possible storage pit, Okçular 6 (S83) (CAP-P2/848). — 320

Fig. 11.17: Map of Okçular tile density. Produced by Toby C. Wilkinson. — 321

Fig. 11.18: Carved stone fragment, Çamdibi 12 (S122) (CAP-P1/4885). — 323

Fig. 11.19: Stone basin, Çamdibi 2 (S126) (CAP-P1/4890). — 323

Fig. 11.20: Map of Byzantine fortifications. Produced by Toby C. Wilkinson. — 326

Fig. 11.21: Interior walls of rectangular structure at Kazalli Kalesi (S91). Rows of mortared tile and stone. Possible Late Roman construction (CAP-P1/1507). — 327

Fig. 11.22: Exterior of outer wall at Kazalli Kalesi (S91). Several courses of stone interspersed with single rows of tile. Possible Middle Byzantine construction (CAP-P1/1511). — 327

Fig. 11.23: External wall at Timle 1 (S110). Well-faced mortared stones. Possible Late Roman construction (CAP-P1/2673). — 328

Fig. 11.24: Upper levels at Gideros (S12). Loosely mortared fieldstones. Possible Early Byzantine rebuilding (CAP-P2/1578). — 329

Fig. 11.25: External wall at Aydos Kale (S190). Stone courses interspersed with tile courses. Possible Middle Byzantine construction (CAP-P15/313). — 330

Fig. 11.26: View of later walls at Kazalli Kalesi (S91). Probable Middle Byzantine construction (CAP-P1/1503). — 330

Fig. 11.27: Gideros Doğu Kalesi (S121). Loosely mortared fieldstones. Probable Early Byzantine construction (CAP-P2/1850). — 332

Fig. 11.28: Outer walls at Kazalli Kalesi (S91). Possible Early or Middle Byzantine construction (CAP-P2/992). — 334

Fig. 11.29: Plan of Timle Kale 1 (S110) and Timle Kale 2 (S112). Produced by Michele Massa and Victor Klinkenberg. — 334
Fig. 11.30: Internal walls at Timle Kale 1 (S110). Well-faced mortared walls (CAP-P1/2679). —— 335
Fig. 11.31: Lower external wall at Timle Kale 2. Well-faced stone construction (S112) (CAP-P1/2693). —— 336
Fig. 11.32: Later rebuilding at Timle Kale 2 (S112) (CAP-P1/2691). —— 336
Fig. 11.33: Plan of Aydos Kale (S190). Produced by Victor Klinkenberg. —— 337
Fig. 11.34: External wall at Aydos Kale. Stone with sparse tile layers. Probable Middle Byzantine construction (S190) (CAP-P1/319). —— 337
Fig. 11.35: Interior Herringbone patterning at Aydos Kale (S190). Probable Middle Byzantine construction (CAP-P1/344). —— 338
Fig. 11.36: External wall at Hıdır Kalesi (S62). Stone and tile courses. Probable Middle or Late Byzantine construction (CAP-P1/409). —— 339
Fig. 11.37: Detail of construction techniques at Hıdır Kalesi (S62) (CAP-P1/407). —— 340
Fig. 11.39: Internal apsidal wall at Akça Kale (S135) (CAP-P1/390). —— 341
Fig. 11.40: External wall at Koca Kale (S154) (CAP-P1/4978). —— 342
Fig. 11.41: Detail of mortar at Koca Kale (S154) (CAP-P1/4985). —— 342
Fig. 11.42: Map of Byzantine religious sites. Produced by Toby C. Wilkinson. —— 343
Fig. 11.43: *In situ* column at Kalafat Mezarlık (S116) (CAP-P2/1287). —— 344
Fig. 11.45: Plan of the church complex of Çadır İni Kilise (S21) and Çadır İni (cave below, S20). Produced by Michele Massa and Victor Klinkenberg. —— 345
Fig. 11.46: Apse of the Çadır İni Kilise (S21) (CAP-P2/62). —— 346
Fig. 11.47: *In situ* chancel screen at Çadır İni Kilise (S21) (CAP-P2/72). —— 347
Fig. 11.48: Grave in the nave of the Çadır İni Kilise (S21) (CAP-P2/1311). —— 347
Fig. 11.49: Architectural fragment at Çadır İni Kilise (S21) (CAP-P2/1305). —— 348
Fig. 11.50: Architectural fragments at Çadır İni Kilise (S21) (CAP-P2/1308). —— 348
Fig. 11.51: Çadır İni (S20) (CAP-P2/79). —— 350
Fig. 11.52: Carved benches in Çadır İni (S20) (CAP-P2/84). —— 350
Fig. 11.53: Plan of Gideros Mağarası I (S59). Produced by Michele Massa and Victor Klinkenberg. —— 351
Fig. 11.54: Crosses in Gideros Mağarası I (S59) (CAP-P1/358). —— 351
Fig. 11.55: Crosses in Gideros Mağarası I (S59) (CAP-P1/359). —— 352
Fig. 11.56: Crosses and inscriptions in Gideros Mağarası I (S59) (CAP-P1/365). —— 352
Fig. 11.57: Plan of Uçakdibi Mağarası (S40). Produced by Michele Massa and Victor Klinkenberg. —— 353
Fig. 11.58: Plan of Ballici İni (S17). Produced by Michele Massa and Victor Klinkenberg. —— 354
Fig. 11.59: Ballici İni (S17) (CAP-P2/45). —— 355
Fig. 11.60: Spolia (possible chancel screen) from Kuşçu 2 (S89) (CAP-P2/936). —— 357
Fig. 11.61: Spolia (basin) from Gideros 2 (S123) (CAP-P2/1855). —— 357
Fig. 12.1: Map showing the location of Çoban Kalesi (S32) in relation to other kales and contemporary sites. Produced by Toby C. Wilkinson. —— 364
Fig. 12.2: Schematic plan of Çoban Kalesi (S32). Produced by Victor Klinkenberg. —— 365
Fig. 12.3: A view of the fortifications of Çoban Kalesi (S32) (CAP-P2/198). —— 365
Fig. 12.4: Sgraffito sherds from Çoban Kalesi. Produced by Lorraine McEwan. —— 367
Fig. 12.5: Selected sherds and small finds from Çoban Kalesi (S32). Produced by Lorraine McEwan. —— 370
Fig. 13.1: Map showing locations and sites mentioned in the text. Produced by Toby C. Wilkinson. —— 375
Fig. 13.2: Traditional houses at Mencekli Köyü Yukarı Mahalle (CAP-P2/12). —— 380
Fig. 13.3: Pipe heads and fragments. Produced by Lorraine McEwan. —— 381
Fig. 13.4: Ottoman-period gravestones from Kumluca (A: CAP-P1/5047 and B: CAP-P1/5049), (C) Çayyakka (CAP-P2/749) and (D) Gideros East (CAP-P2/1827). — 383
Fig. 13.5: Central pillar of the old bridge over the Devrekani near Çamdibi, Loç valley (CAP-P2/1657). — 384
Fig. 13.6: Çilekçe Köprüsü (CAP-P2/1371). — 386
Fig. 13.7: Ilyasbey water installation (CAP-P15/289). — 387
Fig. 13.8: Traditional stone-built bread oven, Çamdibi (CAP-P2/1640). — 388
Fig. 13.9: Recorded finds locations of Seljuk and Ottoman date in the CAP survey area. Produced by Toby C. Wilkinson. — 388
Fig. 14.1: Map showing the CAP survey area and the three landscapes discussed in this chapter (1) Okçular, (2) Abdulkadir-Gideros, and (3) Çamdibi. Produced by Toby C. Wilkinson. — 393
Fig. 14.2: A view of Okçular Kale from the interior (S22) (CAP-P1/157). — 394
Fig. 14.3: A view from the modern cave floor of the narrow, elevated entrance passage of Okçular Kale İni (CAP-P1/400). — 395
Fig. 14.4: Main archaeological features and clusters in the Okçular valley. Produced by Toby C. Wilkinson. — 396
Fig. 14.5: View northeast along the coast to Cide, the rock outcrop of Okçular Kale in mid-distance (CAP-P2/665). — 397
Fig. 14.6: Limestone ridges defining the southern boundary of Okçular valley (CAP-P2/920). — 398
Fig. 14.7: View shed from the top of Okçukar Kale. Produced by Toby C. Wilkinson. — 399
Fig. 14.8: Okçular Kale İni, entrance area to a second alcove with pottery dating to the third millennium BC (S24) (CAP-P2/1056). — 402
Fig. 14.9: View northeast onto the Kalafat coastal plain from the natural hill where we found a concentration of Late Bronze Age pottery (CAP-P2/1754). — 403
Fig. 14.10: Examples of iron ore from U593 (CAP-P1/4650). — 405
Fig. 14.11: Distribution of Roman and Byzantine period surface clusters and features in the Okçular valley. Produced by Toby C. Wilkinson. — 407
Fig. 14.12: Okçular field-boundaries (CAP-P2/917). — 408
Fig. 14.13: Stone-carved water-conduit associated with S105 (CAP-P2/1410). — 410
Fig. 14.14: Gideros bay (CAP-P2/1801). — 412
Fig. 14.15: Map of Abdulkadir and Gideros showing the location of features and clusters. Produced by Toby C. Wilkinson. — 414
Fig. 14.16: View east towards Abdulkadir village, modern marble quarry visible in the southwest corner (CAP-P2/655). — 415
Fig. 14.17: Buffalos and horses grazing in the marshy valley bottom at Abdulkadir valley (CAP-P2/553). — 415
Fig. 14.18: Plan of Ballıcı İni cave (S17). Produced by Victor Klinkenberg and Michele Massa. — 417
Fig. 14.19: Submerged landings at Gideros East (S121) (CAP-P2/1841). — 419
Fig. 14.20: Rock-cut stairs at Gideros West (S12) (CAP-P2/1794). — 420
Fig. 14.21: Rock-cut grave (S66) in boulder northwest of Abdulkadir village. Concentrations of tile and pottery were found on the natural hill to the south (CAP-P2/603). — 421
Fig. 14.22: Kurçalı Tepesi (S16) (CAP-P2/657). — 422
Fig. 14.23: Roman and Byzantine features and surface clusters in the Abdulkadir-Gideros region. Produced by Toby C. Wilkinson. — 424
Fig. 14.24: Stone-built architecture at Gideros East. (CAP-P2/1799). — 425
Fig. 14.25: View south across part of the Çamdibi/Loç valley (CAP-P2/1433). — 426
Fig. 14.26: Large, dome-like forehall of Kılıçlı Mağarası (S93) (CAP-P2/1017). — 429
Fig. 14.27: View north across the Çamdibi/Loç valley from the present entrance of Kılıçlı Mağarası (S93) (CAP-P2/1610). — 430
Fig. 16.1A: The CAP site recording form. — 448
Fig. 16.1B: The CAP site recording form. — 449
Fig. 16.2: The CAP Unit form. — 450
Fig. 16.3: The CAP Grid form. — 451
Fig. 16.4: Principal components analysis plot of all samples for all fourteen elements according to (a) sample number and (b) approximate date. — 453
Fig. 16.5: Ca-Sr plot of samples (except C3186 and C4023) from (a) Okçular (O), Abdulkadir (A), Çamdibi (C) and Derebağ (D), (b) according to date and (c) according to sample number. — 456
Fig. 16.6: Photomicrographs (x6.3, xpl) of (a) C803 and (b) C2856 from Okçular. — 457
Fig. 16.7: Photomicrographs of (a) C3186, (b) C3646 and (c) C3740 from Çamdibi (magnifications all in the range x6.3-8.5; all ppl). — 458
Fig. 16.8: Photomicrographs (x6.3; ppl) of (a) C4169 and (b) C4228 from Derebağ Köy Mağarası. — 459
Fig. 16.9: The sample locations in G6 superimposed over the sherd count distribution showing high density in dark shades. — 460
Fig. 16.10: Phosphate (blue) and Magnetic Susceptibility (red) values in 12–37 and including the values for 8 which is labelled 14a. — 462
Fig. 16.11: Phosphate and MS enhancements highlighted on the sherd distribution plan in G6. — 462
Fig. 16.12: The calcium distribution for all samples. — 463
Fig. 16.13: (a) Zr/Ca and Sr/Ca ratios and (b) Zn/Ca and Cu/Ca ratios in the sample sequence 12-27. — 467
Fig. 16.14: Locations of the ‘hotspots’: phosphate and MS in black (as from Fig. 16.11); multi-element composition in yellow (dotted yellow for uncertain enhancement). — 468
