

Analysis

Volume 19 · Issue 1 · 1999

<i>A. Sharma, Z. Ziegler</i> Hermite interpolation on some perturbed roots of unity	1
<i>Eleutherius Symeonidis</i> The Poisson integral as an appropriate mean value	13
<i>Farit Avhadiev, Karl-Joachim Wirths</i> Estimates of derivatives in an α -invariant set of analytic functions	19
<i>Kamel Betina</i> Sur l'équation de Riccati	29
<i>Toshiaki Hishida</i> The Stokes operator with rotation effect in exterior domains	51
<i>Nicholas Danikas, Stephan Ruscheweyh</i> Semi-convex hulls of analytic functions in the unit disk	69
<i>M. H. Annaby, A. G. García, M. A. Hernández-Medina</i> On sampling and second order difference equations	79
<i>Peter Bundschuh</i> Again on the irrationality of a certain infinite product	93
