

Contents

CHEMISTRY International January-February 2003 Volume 25 No. 1

President's Column 2

Feature

Chemistry Education *by Peter Atkins* 4

On the Public Understanding of Chemistry *by Peter Mahaffy* 6

First Inter-Union Workshop on Science Education *by Bob Bucat* 7

New Strategies for Chemical Education in the New Century:
A Report on the 17th International Conference on
Chemical Education Held in Beijing *by Xibai Qiu* 9

Russia and IUPAC *by Petr Fedotov* 10

The Double Helix is 50 Years Old *by Balazs Hargittai and István Hargittai* 12

IUPAC Wire

Young Observers Describe Experiences 15

The Project Place

Standard XML Data Dictionaries for Chemistry 16

IUPAC Chemical Nomenclature for Chemistry Teachers
at Secondary Schools 16

Glossary of Terms Used in Photochemistry 16

Impact of Scientific Developments on the Chemical
Weapons Convention 17

Provisional Recommendations 17

Making an impACT

Concepts and Applications of the Term "Dimensionality"
in Analytical Chemistry (IUPAC Technical Report) 18

The "Purple Book" in Portuguese:
Compêndio de Nomenclatura Macromolecular
Definitions, Terminology, and Symbols in Colloid
and Surface Chemistry 18

Bookworm

Nanostructured Advanced Materials 19

Macromolecule-Metal Complexes 20

Food Packaging: Ensuring the Safety and Quality of Foods 21

Concise International Chemical Assessment Document 21

The Road to Stockholm: Nobel Prizes, Science and Scientists 24

Conference Call

Organometallic Chemistry *by Jon McCleverty* 25

Electrical Properties of Polymers and More *by Jung-Il Jin* 25

Polymer Networks *by Robert F. T. Stepto* 27

Where 2B & Y 28
