DE GRUYTER

Created in 2004, the *Journal of Homeland Security and Emergency Management (JHSEM)* is an online journal that publishes original, innovative, and timely articles describing and assessing research and practice in the fields of homeland security and emergency management. JHSEM publishes not only peer-reviewed articles but also opinion, news/communiqués, and book/media reviews. Its electronic format allows us to leverage communication technologies in order to accumulate and disseminate the latest knowledge on a broad range of related topics in a timely and inexpensive manner. However, the journal is also offered in print format for those who prefer the traditional media.
