DE GRUYTER

The principal aim of the Journal of Time Series Econometrics (JTSE) is to serve as an internationally recognized outlet for important new research in both theoretical and applied classical and Bayesian time series, spatial, and panel data econometrics. The scope of the journal includes papers dealing with estimation, testing, and other methodological aspects involved in the application of time series and spatial analytic techniques to economic, financial, and related data.

ABSTRACTED/INDEXED IN Current Index to Statistics, EconLit, Mathematical Reviews, OCLC: WorldCat.

ISSN 2194-6507 · e-ISSN 1941-1928
