Retraction

Sanja Stanković, Sanja Glišić and Dragan Alavanatić*

Retraction of: The Effect of a Gender Difference in the Apolipoprotein E Gene DNA Polymorphism on Serum Lipid Levels in a Serbian Healthy Population

<https://doi.org/10.1515/cclm-2019-8899>

Retraction of: Sanja Stanković, Sanja Glišić and Dragan Alavanatić. 2000. The Effect of a Gender Difference in the Apolipoprotein E Gene DNA Polymorphism on Serum Lipid Levels in a Serbian Healthy Population. Clin Chem Lab Med. Volume 38, Issue 6, pages 539–544. (<https://doi.org/10.1515/CCLM.2000.079>).

The retraction has become necessary because of self-plagiarism of the article “Association of ApoE Polymorphism with Serum Lipids in Serbian Healthy Population” by Sanja Stanković, Vesna Spasojević-Kalimanovsa and Dragan Alavanatić published in the journal *Yugoslav*

Medical Biochemistry, the legal predecessor of the *Journal of Medical Biochemistry*, official journal of the Society of Medical Biochemists of Serbia. The Editor-in-Chief of the *Journal of Medical Biochemistry*, Prof. Dr. Nada Majkić-Singh, detected the self-plagiarism recently and consequently retracted the article in the journal *Yugoslav Medical Biochemistry*, and asked the Editors of *Clinical Chemistry and Laboratory Medicine (CCLM)* to retract the article published in *CCLM* as well.

The *CCLM* Editors and the Publisher sincerely regret the situation and wish to apologize for any inconvenience that may have been caused.
