BIOMEDICAL ENGINEERING/ BIOMEDIZINISCHE TECHNIK

Joint Journal of the German Society for Biomedical Engineering in
VDE and the Austrian and Swiss Societies for Biomedical Engineering

Editor/Herausgeber

Editor-In-Chief: Olaf Dössel, Karlsruhe, Germany; ASSOCIATE EDITORS: Peter Augat, Ulrich Boenick, Pamela Habibović, Jens Hauelsen, Wilhelm Jahnen-Dechent, Branislav Jaramaz, Stefan Jockenhövel, Petra Knaup-Gregori, Marc Kraft, Thomas Lenarz, Harry Lenthe, Steffen Leonhardt, Benny Lo, Luca Mainardi, Silvestro Micera, Thomas Penzel, Gernot Plank, Klaus Radermacher, Andrea A. Robitzki, Tobias Schaeffter, Erik Schkommodau, Jess G. Snedeker, Leif Sörnmo, Thomas Stieglitz, Nobuhiko Sugano, Jürgen Werner

Editorial Office/Redaktion

Editorial Board: Ulrich Boenick, Berlin; Branislav Jaramaz, Pittsburgh; Marc Kraft, Berlin; Harry van Lenthe, Leuven; Benny Lo, London; Luca Mainardi, Milano; Silvestro Micera, Lausanne; Thomas Penzel, Berlin; Andrea Robitzki, Leipzig; Klaus-Peter Schmitz, Rostock; Tobias Schaeffter, London; Jess G. Snedeker, Zurich; Leif Sörnmo, Lund; Nobuhiko Sugano, Osaka; Jürgen Werner, Bochum; Erich Wintermantel, München; Werner Wolf, Neubiberg

Profile/Kurzcharakteristik

Biomedical Engineering/Biomedizinische Technik (BMT) is a high-quality forum for the exchange of knowledge in the fields of biomedical engineering, medical information technology and biotechnology/bioengineering. As an established journal with a tradition of more than 50 years, *BMT* addresses engineers, natural scientists, and clinicians working in research, industry, or clinical practice. All articles are peer-reviewed. *BMT* publishes reviews, research articles, and short communications. Since the journal is moving to an English only publication, all manuscripts must be submitted in English.

Readership / Leserschaft

MT readers are active as decision-makers in the following areas of the bioengineering environment:

In industry: Research, development, manufacturing, product consulting and distribution as well as medical product services. In medical facilities: Technical engineering support, service, training and maintenance as well as planning, management and quality assurance in the use of medical technology.

In service areas, authorities and public offices: Planning, scheduling, monitoring and assessing medical facilities, processes and equipment As self-employed businesspeople and traders in the area of biomedical engineering

In its capacity as an indispensable advertising medium, *BMT* reaches managers in development laboratories and in the entire sector of medical research as well as chief consultants in clinics, sanatoriums and hospitals. Buyers also include health insurance companies and libraries.

Areas Of Interest: Biomedical engineering draws up solutions for requirements in current medical practice and implements them in the form of industrial products. Biomedical engineering is currently experiencing rapid growth. Biomedical engineering comprises the provision of engineering facilities and methods and application thereof on living systems in biology and medicine. By using new technologies and computer technology, many advanced and new areas of application have been tapped which make a significant contribution towards advances in modern medicine.

Issues covered by *BMT* include: Diagnostic Imaging, Image Processing, Biosignal Processing, Modelling and Simulation, Biomechanics, Information and Communication in Medicine, Telemedicine and e-Health, Surgery, Minimum Invasive Interventions, Endoscopy and Image Guided Therapy, Diagnostic and Therapeutic Instrumentation, Clinical Engineering, Micro and Nanosystems in Medicine, Active Implants, Biosensors, Neuroengineering, Neural Systems, Rehabilitation and Prosthetics, Biomaterials, Cellular and Tissue Engineering, Artificial Organs, Biomedical Engineering for Audiology, Ophthalmology, Emergency and Dental Medicine, General Subjects like Education and Training, Health Technology Assessment, Special Topics like Linking Proteomics and Genomics with Biomedical Engineering Emergency Medicine.

Publication Frequency / Erscheinungsweise

6 × im Jahr / 6 per year

Technical Facts/Technische Daten

Format	210 mm × 280 mm
Printing area/ Satzspiegel	170 mm × 250 mm
